Can your wallet survive a serious illness?
The answer can be “yes” with specified critical illness insurance from Unum.

Life can change in a heartbeat.
Heart problems run in Ann’s family. But she has two boisterous boys to keep up with. She’d rather worry about their antics making her heart skip a beat, not the high cost of a heart condition.

Who’s at risk?
Age isn’t always a factor:

- About one-fourth of all heart-disease-related deaths occur in men age 35 to 65.\(^1\)
- The average breast cancer patient is a 40- to 55-year-old woman.\(^2\)

In a Harvard study, people who filed for bankruptcy due to medical expenses reported average out-of-pocket health-care costs of $13,460, even though they had health insurance at the onset of their illness.\(^3\)

Use your Critical Illness benefit any way you choose.
Critical illness insurance pays you a lump sum benefit at the first diagnosis of a covered illness.\(^4\) It can be used however you choose for the expenses health insurance doesn’t cover.

Illnesses covered by the base plan include:
- heart attack
- stroke
- major organ transplant
- permanent paralysis due to a covered accident
- end-stage renal (kidney) failure
- coronary artery bypass surgery (pays 25% of lump sum benefit)

Illnesses covered by the enhanced plan include all of the above, plus:
- cancer
- carcinoma in situ\(^5\) (pays 25% of lump sum benefit)

How to apply)
Your benefit enrollment is coming soon. To learn more, watch for information from your employer.
Get the coverage you need.

Critical illness insurance is offered to all eligible employees age 16 to 69 (64 in California) who are actively at work. Choose the benefit amount that’s right for you — from $5,000 to $50,000, in $1,000 increments.

Three reasons to buy this coverage at work
1. You get affordable rates when you buy this policy through your employer, and the premiums are conveniently deducted from your paycheck.
2. You own the policy so you can keep it even if you leave the company or retire. Unum will bill you directly for the same premium amount.
3. Coverage becomes effective on the first day of the month in which payroll deductions begin.

Employer-selected benefit option
Your employer may automatically include this option as part of your benefits, for an additional premium.

Health screening benefit rider
This benefit pays $50 per calendar year per insured individual if a covered health-screening test is performed, including blood tests, chest X-rays, stress tests, mammograms and colonoscopies. Eligibility begins 30 days after the coverage effective date. A full list of more than 20 covered tests will be provided at your enrollment.

Employee-elected benefit option
Your employer may make this option available to you to purchase, for an additional premium.

Enhanced (two payout) plan
This plan includes all covered conditions previously listed and can provide an additional lump sum benefit following diagnosis of cancer and/or carcinoma in situ.

Policy provisions
Reduction of benefits
The benefit amount for the employee and spouse reduces by 50% on the first policy anniversary after the insured individual’s 70th birthday, or five years after the policy effective date, whichever is later. Premiums for the policy will not be reduced. If partial benefits for coronary artery bypass surgery or carcinoma in situ have been paid prior to the reduction of benefits, then the new benefit amount will be calculated by applying the 50% to the benefit amount reduced by the prior payout.

The additional cancer and carcinoma in situ benefit
No benefits will be paid for cancer or carcinoma in situ if the date of diagnosis occurs during the first 30 days from the coverage effective date.
