FOREWORD

The Staff and Sponsors of the Blue Bonnet Hill present this book as a story in pictures of the year's work. It is their desire that it may prove a life treasure, aiding each of you to recall vividly your happy school days of 1930.

Dedication

To the American Missionary Association, the loyal women and brave men who dared foster Negro Education in the darkest days of Reconstruction, and who are still striving to give the underprivileged a constructive philosophy of life, we dedicate this, the second Year Book of Tillotson College.

"TO THE STARS THROUGH BOLTS AND BARS"

The Class of '30 in the morn of life
Goes forth with ambition, and armor bright.
The bugle of time blows loud and strong,
Calling us onward to life's great thron.

Through the thickest of doubt we face shot and ball,
Our weapons tarnish, our classmates fall;
Even though we stumble and tilt and slide,
We'll keep on going, our motto, a guide.

Onward, our watchword, face set night and day
On the star of hope beckoning us on our way.
We accepted the challenge with smile and care,
And hope with others the future to share.

Discouragements and pains we've met;
False friends have tried our course to upset;
Lurking troubles at times have molested our rate,
But we set our feet firmly, we'll ne'er break our gait.

We have toiled when the sun has poured its bright rays;
We have toiled when the rain has made gloomy the days;
And now we are made ready to keep up our work,
For we feel life's too short to have time to shirk.

Our dear Alma Mater as we're to depart
To enter life with her new kinds of art,
We'll keep our eyes fixed on the point in the sun,
Until our goal we have honorably won.

In years this Class of '30 you'll find
Though small in number, but not in mind,
Filled with a more zealous intellect
And culture which has been ours to select.

We'll drink from the fountain of knowledge for gain,
Until the draught intoxicates our brain;
We'll drink and drink from the spout anew,
Then we'll become sober and sober for true.

We count a day lost whose lowering sun
Views from our hand no worthy deed done;
So with brain and brawn we press back all doubts,
And push toward the Stars Through the Bolts and the Bars.

We, the Class of '31, entered Tillotson College in September, 1927, with an enrollment of thirty-three. On entering the Sophomore Class, we found a large number of our members had dropped for various reasons and that new members had taken their places. Among the new members are Misses Mahel Balles, Lola Balles and Irene Biles. But, before we had thought, Dan Cupid had invited Mabel Balles into wedlock. Now we have only ten members left but we are striving on. Though Cupid has a spite at us, we intend to hold to our motto: Let him who deserves it, reap the reward, "and win as 'Excelsior'."

SOPHOMORE CLASS HISTORY

In September, 1928, there came from all over the state about seventy excited and "Green" Freshies. Many sad moments shadowed our first aim of success, but still we worked on. During Freshman week humiliation, fright, and thrill were only a few emotions the poor "freshies" had to endure. In spite of that fact, before the close of the year we had gained ambition for ourselves and won admiration of the entire school.

In September of 1929 we entered Tillotson College as a group of wise Sophomores. We were a bunch of sophisticated wise fools and it was our turn to lead the "freshies" a wild life. The following week found us more aspiring and we began to cast our anchors farther into the sea of success. We lost several members of our class, but new ones came and the thirty-three that were present helped us to keep the banner high in the air. Our class was composed of half the Octette of the Glee Club and the organizers of the Carvers' Science Club which at present has become very popular. We are proud to know that the largest attraction on Tillotson Campus this year was the visit of Dr. George W. Carver, great scientist, and that the credit is due members and advisors of the Club. Dr. Carver's visit not only made our Club popular but it also gained popularity for the school. We can never forget our most self-conceited sophomore year, neither can we as yet imagine what the Junior means, but we live in hopes and are filled with expectancy for crowning of that year. The following persons were elected as its officers.

Mrs. C. S. Pollard

CLASS HISTORY

Those girls who were registering for the Freshmen Class at Tillotson College during the week, September 12-17, 1929, were very green Freshmen. Before the end of the month the class organized and elected Earlie Collins, President; Theresa McCall, Secretary, and Naomi Crenshaw, Treasurer. Being very eager to become acquainted with every phase of college life, they were represented in every college activity. The Freshmen were proud to be called the victors in the Lincoln Memorial Drive. The Freshmen are active in all Clubs: Deliver's, Carver Science, Y. W. C. A., Sunday School and so on. We feel that our supervisors, Mrs. Prosser and Mr. Carpenter, are responsible for our success. We shall always feel grateful for the interest which they have manifested in us. More over for the Freshmen Class!

MILDRED THOMAS, Secretary
The Commercial Department

Class motto: “Our goal is the mountain top of efficiency.”

Class colors: Silver and Gold.
Tillotson had the vision to foresee the development of the Commercial Department thirty-two years ago. Nineteen Hundred Thirty finds us with expanded courses, an increased enrollment and an added number of graduates holding responsible positions.

Mrs. Walls and Mrs. Van Dyke are the instructors in the Department. Their aim is to share faithfully in the general work of the College and too, by their strenuous efforts, increase the efficiency by giving a practical turn to office training and secretarial accomplishments as well as stenographic service.

In September, 1928, the Commercial Department, gay and cheerful, twelve in number, ascended the hills of Tillotson College. Viewing with much ambition the things that were in store for us, we began to do great things. Eight of the group finished the work required, therefore they did not return this year. Those who are successfully filling positions as stenographers are in the majority.

Though few in number we returned September, 1929, as Senior Commercials, much wiser and with greater ambition and willingness to be taught and endeavored to measure up to the requirements of our course. The Commercial Department has grown tremendously this term and we feel that it is but a stepping stone to success under the leadership of President Hodges and his entire faculty.

In looking over our past record we realized that we have made wonderful progress and that we should not only prepare ourselves for the many opportunities that will present themselves to those who are competent, but prepare ourselves for a better life of service and leadership.

"THE WIDE AWAKE STENOS CLUB"

THE WIDE AWAKE STENOS CLUB was organized early in the school year. To President Hodges we are grateful for offering the Club name.

OBJECT OF THE CLUB

The object of this club is to share in the elimination of the incompetent stenographer, to assist the competent to a better position; to acquaint the club members with leading books and periodicals of their profession and to inspire girls to be desirous of a thorough commercial training.

We, the Class of 1930, entered Tillotson College September 12, 1925. The year 1930 finds us more reverent, desirous of success and enthusiastic under the supervision of our High School Principal, Mr. P. R. Gibson. We now stand as tourists on the mountains of success achieved through persistent efforts. But laying aside the thought of reward, as we draw the curtain of parting, we leave this poem as a token of remembrance:

We come into our own, faint hearts and learned,
How wide and how far may be our domain,
How white the fires of spirit burned
When false ties broken and false words stilled
Our dreams will quicken, our pulse be thrilled.

THE NINTH GRADE HISTORY

The Marie Antoinette Club was organized November 28, 1929, with Miss Fannie M. Antoinette Ussery as Advisor. Being encouraged very much we then began to struggle to accomplish something worth while.

By January 2, 1930, the royal group composed of Misses Bernice Beverly, President; Ruby Baker, Iola Clemons, Audrey De Blanc, Katie Mae Floyd, Ethel Grant, Vivian Rucker, Aubrey Smith, Rosalie Le Quey and E. tella Washington succeeded in being the first class to pay for Annual pages. Not satisfied with this we decided to do more. On the night of February 28, 1930, the Marie Antoinette placed $52.25 on the table ranking third in lead for the Lincoln Memorial Drive.

Our greatest work hasn’t been accomplished yet, but to show our gratitude to President and Mrs. J. T. Hodges and Mrs. I. B. Prosser, who have given their heartiest support and striven to uplift us, we will unveil our greatest surprise by May 21, 1930. Watch the Marie Antoinettes! Watch Tillotson grow.

When Tillotson opened her doors September 16, 1929, a few pupils enrolled for the Eighth Grade. One of our classmates, Myrtle Collins struggled with us only one month having taken seriously ill. Our class under the leadership of our Advisor, Miss A. Ussery worked like bees to succeed with our share of the Lincoln Memorial. The name of our Club was "The Excelsior Royal" and on February 28, 1930, we laid on the table twenty-one dollars.

DORCAS KINCHLOW, Secretary.
THE SUMMER SCHOOL GROUP

The Summer School is now an integral part of the school year. The Summer School of 1929 represented in part by the picture above was our first attempt at holding a summer school for a period of years. The present term, 1930, promises to be quite encouraging. Registration begins on May 23, 1930. No credit will be given for work started after June 2.
The Y. W. C. A. Group

Y. W. C. A. Picture

The organizations for Christian Service are the Y. W. C. A., the Christian Endeavor, the Sunday School, and Charity Groups. The pictures show a number of these Y. W. C. A. girls and the Charity groups as they were about to leave the dormitory distributing baskets to the poor on Thanksgiving day. The money necessary to fill these baskets was given by the faculty and students of the College.

Thanksgiving Angels
HOME ECONOMICS

This picture shows the girls of the Domestic Science groups in Home Economics. During 1929-30 the Department of Home Economics was reorganized as a Department. Modern conveniences, gas lighting, dining room fixtures, cabinets for sewing and cooking, new tables and other conveniences were placed in the Home Economics Section. This is now one of the most attractive departments for the young women of the College.
The College Cafeteria is one of the popular places on the campus near the noon hour. During the summer school the cafeteria is one of the busiest places on the campus for the tired thirsty summer students.
TEACHER TRAINING

Teacher Training is a very large part of the work of a woman’s College, in as much as a majority of the college students major in education. The picture shows a practice teacher at work in one of the city ward school where teaching is done under the supervision of the teacher in charge of the class and Mrs. Prosser, teacher of education in the College.
CHEMISTRY LABORATORY

THE CHEMISTRY LABORATORY

The Chemistry Department received a great deal of attention during the year 1929-30. The Chemistry Laboratory and Classroom were arranged to accommodate well, larger groups of students. New tables and equipment make this department a pleasure to visit. The Chemistry Department occupies the entire lower floor of Evans Industrial Hall.
Organizations
GIRLS IN PHYSICAL EDUCATION

The development of strong healthy bodies is one of the real needs of our present civilization. A start in the right direction is being made by the young women who were a part of the physical training classes. It is the hope of all that this department may be strengthened to include plays, games, recreation, and health education.
THE CARVER SCIENCE CLUB

In the second year of its existence the Carver Science Club is able to look back upon the accomplishments—during this period, however small these accomplishments may be, with great pride. Even though one year has been added to the span of one's life it does not necessarily follow that a milestone has been reached. In the case of the Carver Science Club, however, a milestone has been reached and a monument has been erected to its memory. This milestone was reached and the monument was erected on February 11, 1930, when the man after whom the Club is named and whose picture is on the opposite page appeared in Tillotson College Auditorium under the auspices of the Club to address the Club and the many friends of the school.

Each year our personnel changes. We are fortunate this year in having as our staff Miss Mildred Thomas, president; Miss Bessie Mae Bryant, vice-president; Miss Willie Beatrice Thompson, Secretary; Miss Alline Larremore, assistant secretary; Miss Theresa Clark, treasurer; and Mrs. Myrtle Merrileweather, chairman of program committee.

The visit of Dr. Carver meant much to the Club by way of adding new vigor and enthusiasm. It is not predicted that any of the members of the Club will be able to analyse the peanut and the potato as Dr. Carver has done, but it is our fondest hope that a large proportion of them may develop analytical minds.

At the close of Dr. Carver's address he gave the following significant poem:

THE TEACHER

An old man, going a lone highway,
Came at the evening, cold and gray,
to a chasm vast, deep and wide,
Through which was flowing a sullen tide.
The old man crossed in the twilight dim,
The sullen stream had no fear for him;
But he turned when safe on the other side
And built a bridge to span the tide.

Old Man, said the Pilgrim near,
You are wasting vast strength with building here,
Your journey will end with the ending day,
You cannot gain with passing way;
You've crossed this chasm deep and wide
Why build you this bridge at even tide?

The builder raised his old gray head,
Said the Pilgrim, 'Twas welcome to build
There followed, from the rear today,
A youth whose feet must pass this way;
This chasm that has been as naught to me;
To that fair-haired youth may a pitfall be;
He too, must cross in the twilight dim
Good Friend, I'm building this bridge for him.'
DELVER'S CLUB

The Delver's Club, during its third year of existence maintains its purpose to promote an interest in literature, and to stimulate an appreciation for the best. Membership into the Club is based upon a scholastic average of B, especially in English. Two regular meetings, business and social, respectively, are held each month at which time interesting discussions, literary and social programs are given.

A prize of ten dollars in gold was given to Miss Doxie Haws, of the College Department; Five dollars to Miss Mildred Thomas of the High School Department; and two dollars and fifty cents to Miss Alberta Meeks, College Special, supplied in the store. The money for these prizes was given by the Congregational State Convention. For the best conduct in the dormitory $2.50 in gold was divided. Miss Christine Kinchlor and Miss Ora Green for courteous service in the Dining Hall.
THE ALUMNI

Mr. Sherman Edwards, former student of Tillotson, now an outstanding business man operating a line of taxi cabs and doing a very fine business.

Mrs. Woodie M. Howard, notary public, former student of Tillotson College.

Mr. Turner Hubbard, graduate of Anderson High and former student of Tillotson College. Directly after leaving Tillotson he was employed as a teacher at Marble Falls, returning after close of school he was employed by the Baker Hotel systems bath department which work he is still engaged in. Mr. Hubbard was active in all lines of athletics and extracurricular activities starring in basketball, football, and tennis as well as being a good student in his classes.

Mrs. Gladys Mays, student of Prairie View, loyal supporter of Tillotson during the recent Annual Drive for advertisements.

Mrs. Emma Torian-Whitley, graduate of Tillotson, 1910. Miss Torian taught school six years, attended Prairie View one year, holds a diploma in general nursing from the Chicago School of Nursing. She is at present a housewife in Corpus Christi, Texas. Her sister, Miss Nannie Campbell is a teacher of music at Kerens, Texas.

Mr. Chas. E. Johnson, alumnus of Tillotson College finishing with the class of 1901 and has taken further work at Prairie View State Normal, completing the work in 1921. Mr. Johnson was agent for the Southern Insurance for a time and is now Principal of the Board House School, Blanco County, Texas.

Miss Lula Mae Smith, now deceased, was an active worker and student of Tillotson College up to the time of her death.

Miss Alice Bingham, graduate of Tillotson College, 1910. She is a resident of Corpus Christi at the present time.

CRACKS—WISE AND OTHERWISE

The term is almost ended, and everybody is getting ready to get away. Yes, even the trees are leaving. In fact, things are so exciting that you can’t even hear their barks.

Professor (in chemistry): Now, what is meant by ether?
Dumb Student: Why, she is Esther’s sister.

An original problem in physics: What becomes of one’s lap when he stands up?

Perfume the experiment and see for yourself.

If ignorance is bliss we ought to be the happiest mortals in our class.

He (ardently): Dear, you are all the world to me! Is there any hope? Shall I press my suit?
She (softly): Yes; and you might have your shoes shined too while you’re at it.
Teacher: What is a triangle?
Student: Something invented by a Greek named Isosceles.
The Miser (dying): Save me! Call the doctor!
Friend (at the telephone): Heavens! the doctor is out. What shall I do?
The Miser: Hey, wait! Don’t hang up—you’ll lose the nickel. Go ahead and call the undertaker.

What is the difference, if any, between a freshman and a sophomore?
I have made a searching inquiry into the matter and a consensus of academic opinion leads me to believe that the only difference between a freshman and a sophomore is that a freshman knows she’s dumb.
Barber: “Is there any particular way you’d like to have your hair cut?”
Freshman: “Yeah. Off.”
Old Gentleman: “I see that in London a man is run over every half-hour.”
Old Lady: “Poor fellow.”
Willie: “Did Edison make the first talking machine, pa?”
Pa: “No, my child. God made the first talking machine, but Edison made the first one that could be shut off.”

JOKES BY M. D. HALL

Mrs. Prosser: “Lola Balles, if you had bad discipline in your classroom what would you do?”
Lola Balles: “Dismiss.”
Mrs. Pollard: “Mildred, where are the Phillippine Islands?”
Mildred Hall: “It’s in Alaska.”
Artie Mae Daniels: “Mildred, where is your ‘boy Fren?’”
Mildred: “Oh! Francis took him and I’m out.”
Mildred: “Elizabeth, why does Lenora want to go to Georgetown with Fannie Mae?”
Elizabeth Brown: “Because Fannie is in with all the Sheiks there and will give her a handout.”
Mae Belle: “Francis, why did you want that boy to bring that book over to your house yesterday?”
Frances Doolittle: “Because I told Mildred I usually get that I go after, so I thought I’d try my hand.”
Mildred: “Mrs. Bolden, I wonder why Elmira Rucker admires riding in the Chevrolet?”
Mae Bell: “Mildred, I wonder why Mrs. Pollard smiles so much on Wednesday and Sunday?”
Mildred Hall: “Because she receives that wonderful letter from Augusta Ga.”
Frances Doolittle: “Hemora, why does Mae Bells want to come to practice on Tuesday night?”
Hemora Mitchell: “Because Elizabeth Brown furnishes a new Ford and it has a letter that Mae Bells is interested in.”
Mildred: “Mr. Moore was interested in a picture of Mr. Smith on Sunday.”
Well he is interested in a picture, that lives on West St. and Moore: “What do you have to do to buy potatoes?”
Frances Doolittle: “Tell the man.”
Mildred Hall: “If your house was the Revenue Bill would it burn?”
Louis McArdle: “If which ever house will take it.”
Mrs. Wilson: “What constitutes a good short story?”
Mrs. Barton: “Lots of love and thrilling things.”
