

## How the Rx4 structure works

Covered prescription drugs are assigned to one of four different levels with corresponding copayment amounts. The levels are organized as follows:

- **Level One:** lowest copayment for low cost generic and brand-name drugs.
- **Level Two:** higher copayment for higher cost generic and brand-name drugs.
- **Level Three:** higher copayment than Level Two for higher cost, brand-name drugs that may have generic or brand-name alternatives on Levels One or Two.
- **Level Four:** highest copayment for high-technology drugs (certain brand-name drugs, biotechnology drugs and self-administered injectable medications).
- If you request a brand-name drug when a generic equivalent is available, you pay the applicable generic copayment, plus the cost difference between the brand-name and generic drugs. If your doctor indicates that a generic drug cannot be substituted by writing "Dispense as Written" on your prescription, you can only receive that specific drug, even if a generic equivalent is available. As a result, you will be charged the applicable brand-name copayment. In this case, you will not be responsible for the cost difference between the brand and generic. If you discover at the pharmacy that your doctor gave you a "Dispense as Written" prescription, you can ask the pharmacist to contact your doctor for approval of a generic equivalent.

Prescription drug products, or classes of certain prescription drug products, are generally reviewed on an ongoing basis by a Humana Pharmacy and Therapeutics committee, which is composed of physicians and pharmacists. Drugs are reviewed for safety, effectiveness and cost-effectiveness prior to assignment or a change in assignment to one of the levels. Coverage of a prescription drug or placement of the drug within a level are subject to change throughout the year. If drugs are moved to categories with higher member cost, advance notice is provided based on past usage. Always discuss prescription drugs with your doctor to determine appropriateness or clinical effectiveness.

Some drugs in all levels may be subject to dispensing limitations, based on age, gender, duration or quantity. Additionally, some drugs may need prior authorization in order to be covered. In these cases, your physician should contact Humana Clinical Pharmacy Review at 1-800-555-CLIN (2546).

Members can visit Humana's Website, **Humana.com**, to obtain information about their prescription drug and corresponding benefits and for possible lower cost alternatives, or they can call Humana's Customer Service with questions or to request a partial Humana Rx4 Drug List by mail.

## Coverage at participating pharmacies

When you present your membership card at a participating pharmacy, you are required to make a copayment for each prescription based on the current assigned level of the drug.

<b>Drugs assigned to:</b>	<b>Copayment per prescription or refill</b>
Level One:	<b>\$10</b>
Level Two:	<b>\$30</b>
Level Three:	<b>\$50</b>
Level Four:	<b>25%*</b> of the total required payment to the dispensing pharmacy per prescription or refill.

- \* The total maximum out-of-pocket copayment costs for drugs in Level Four is limited to \$2,500 per calendar year, per member.
  - If the dispensing pharmacy's charge is less than the corresponding copayment, you will only be responsible for the lower amount.
  - Your copayments for covered prescription drugs are made on a per prescription or refill basis and will not change if Humana receives any retrospective volume discounts or prescription drug rebates.
- There are no claim forms to file if you use a participating pharmacy and present your membership card with each prescription.

## Nonparticipating pharmacy coverage\*

You may also purchase prescribed medications from a nonparticipating pharmacy. You will be required to pay for your prescriptions according to the following rule.

- You pay 100 percent of the dispensing pharmacy's charges.
  - You file a claim form with Humana (address is on the back of ID card).
  - Claim is paid at 70 percent of the dispensing pharmacy's charges, after they are first reduced by the applicable copayment.
- Your copayments for covered prescription drugs are made on a per prescription or refill basis and will not change if Humana receives any retrospective volume discounts or prescription drug rebates.
- \* In Georgia, the nonparticipating benefits are paid the same as the participating benefits, per state regulation.

## Coverage specifics

Your coverage includes the following:

- A 30-day supply or the amount prescribed, whichever is less, for each prescription or refill.
- Contraceptives.
- For Arizona, coverage also includes FDA approved contraceptive devices.
- Certain self-administered injectable drugs and related supplies approved by Humana.
- Certain drugs, medicines or medications that, under federal or state law, may be dispensed only by prescription from a physician.

Some drugs may be subject to prior authorization requirements for coverage under the plan. Additionally, some drugs may have dispensing limitations, which limit coverage based on duration, age, gender or dosage criteria. To determine whether a drug prescribed for you may be affected by these coverage limitations, please contact Customer Service or visit our Website.

For a complete listing of participating pharmacies, please refer to your participating provider directory, or visit our Website at **Humana.com**

---

## Mail-order and 90-day Retail

For your convenience, you can receive a maximum 90-day supply per prescription or refill (maximum 30-day supply for self-administered injectable and specialty drugs) for certain maintenance drugs. In these cases, multiple copayments will usually apply. The same requirements apply whether purchasing medications through a participating mail-order pharmacy or purchasing in person at a retail pharmacy. Some retail pharmacies may not dispense on a 90-day basis. Members can call Customer Service or visit our Website for more information, including mail-order forms.

---

## Definition of terms

- Brand-name medication (drug): a medication that is manufactured and distributed by only one pharmaceutical manufacturer or as defined by the national pricing standard used by Humana.
- Copayment: the amount to be paid by the member toward the cost of each separate prescription or refill of a covered drug when dispensed by a pharmacy.
- Generic medication (drug): a medication that is manufactured, distributed, and available from several pharmaceutical manufacturers and identified by the chemical name or as defined by the national pricing standard used by Humana.
- Participating pharmacy: a pharmacy that has signed a direct agreement with us or has been designated by us to provide covered pharmacy services, covered specialty pharmacy services; or covered mail order pharmacy services, as defined by us, to covered persons, including covered prescriptions or refills delivered through the mail.
- Nonparticipating pharmacy: a pharmacy that has not been designated by us to provide services to covered persons.

---

Before applying for coverage, please refer to the Regulatory Pre-enrollment Disclosure Guide for a description of plan provisions which may exclude, limit, reduce, modify or terminate your coverage. Limitations and exclusions to coverage apply even if a health care practitioner has performed or prescribed a medically appropriate procedure, treatment or supply. This does not prevent your health care practitioner from providing or performing any procedure, treatment or supply. This guide is available at [Humana.com/members/enrollment-center/pre-enrollment-disclosures](http://Humana.com/members/enrollment-center/pre-enrollment-disclosures) or through your sales representative.
