A Letter from President Colette Pierce Burnette

My Dear and Mighty HT Rams,

Your campus has not been the same without you. We have missed your laughter in the hallways between classes. We have missed your look of excitement and wonder as you wrestled with and subsequently solved a challenging classroom assignment. We have missed you physically stopping by our offices for assistance and guidance, while sharing with us how life is treating you and your loved ones. We have missed you.

I know the past fifteen months have been challenging, arduous, and at moments felt close to impossible. My dear and mighty HT Rams, please know – I will forever remain inspired and proud of you and your tenacity, during such a tumultuous and harrowing time. Yet, you pushed forward. You persevered. You persisted. We are excited to be sharing our Campus Reactivation Plan for Fall 2021.

Since the onset of the pandemic, our university's Campus Preparedness and Pandemic Influenza and Campus Reactivation planning team has worked tirelessly to guide our university based upon prevailing science as relayed by the Centers for Disease Control and Prevention (CDC), the advice of local and national health experts on the spread of COVID-19, the current and expected surges of cases, and the availability of vaccine services and supplies in our community. That same team, composed of Huston-Tillotson University faculty, staff, administrators, and students has crafted our Campus Reactivation Plan.

Our Campus Reactivation Plan is a living document that delineates the protocols and policies, which will guide campus reactivation as Huston-Tillotson University resumes in-person operations, this Fall 2021 semester and beyond. As reactivation begins for our campus, what remains paramount is the safety, health, and overall well-being for members of our campus community. To facilitate this paramount concern, our university has engaged medical and engineering experts to assist and guide our planning efforts.

We have been together apart – now is the time to be reunited this impending Fall 2021 semester. Huston-Tillotson University's faculty and staff look forward to experiencing your intellectual curiosity, your joy, and your laughter reverberate across campus. We look forward to welcoming you back to your campus.

In Union, we continue to find our Strength,

Colette Pierce Burnette, Ed.D.

President & CEO

OFFICE OF THE PRESIDENT

900 CHICON STREET • AUSTIN, TEXAS 78702-2795 • P 512.505.3002 • F 512.505.3195 • WWW.HTU.EDU

OVERVIEW

A 2019 novel coronavirus spread throughout the world and caused massive stay-at-home orders in the United States and abroad at the beginning of March of 2019. COVID-19 or 2019-nCoV, with no early cure, was quickly labeled a pandemic that hit hard in older and minority populations, causing severe illness and death. Huston-Tillotson University heeded the scientific evidence and moved all classes and most operations online on March 30, 2020.

The campus resumes in-person operations, beginning with the Fall 2021 semester. The policies and protocols laid out in this document will guide

the campus reactivation and operations. They have been developed by the Campus Reactivation Team, established with the goals of (a) assessing and reducing risk to the campus and its surrounding community; (b) developing and executing risk mitigation strategies; and (c) maintaining and enhancing programs for all campus and community stakeholders.

The plan is subject to change to reflect best practices and recommendations from advisors. This document is dynamic and reflects the contents of the plan at the date indicated in the file name.

GUIDING PRINCIPLES

The resumption of full operations at Huston-Tillotson facilities includes a combination of the use of appropriate face masks, physical distancing, hand hygiene, limited density in indoor spaces, control of the flow of traffic into and around select high-traffic buildings, vaccination encouragement, testing, symptoms tracking, and contact tracing.

This information is subject to change. Please check regularly for updates.

- ▶ Given the current trends and projections, **Huston-Tillotson University is planning to resume on campus operations for the Fall 2021 semester.**
- ▶ **Masks will be required in certain indoor environments.** Please reference detailed **Mask Policy** in this document for academic and other campus spaces.
- ▶ Ongoing weekly surveillance testing will be required for certain populations throughout the fall semester.
- ▶ **Vaccines or an approved exemption is required residential students and student athletes.** Vaccination is highly encouraged for all students, faculty, and staff. We will have on-campus COVID-19 vaccination clinics that will be open to all HT faculty, staff, students, alumni and their family members. More information on vaccines in the Austin area can be found [here](#).
 - ▶ [Residential Students and Student Athletes Vaccination Policy](#)
- ▶ We regularly update our Reactivation document including policies and protocols on vaccination, testing, daily health assessments, quarantine and isolation.

HUSTON-TILLOTSON UNIVERSITY HEALTH AND SAFETY PROTOCOLS

The Huston-Tillotson University team managing the campus reactivation has monitored Center for Disease Control and Prevention, State of Texas, Travis County, and City of Austin guidelines for the safe assembly related to the campus. These protocols (masks, hand sanitizing, physical distancing) and others will guide the campus assembly to ensure a safe environment.

If the pandemic landscape changes, then campus protocols will be re-evaluated and may be scaled back as recommended by local and national public health entities. Monitoring of the community-based risk level will include indicators such as new hospital admissions, the 7-day moving average of hospitalizations, number of patients in the ICU, ventilator usage, positivity rate, and the 7-day moving average of cases.

CAMPUS ACCESS

CAMPUS SAFETY AND SHARED RESPONSIBILITY

Health and safety on a university campus are shared responsibilities for all involved. All students, employees, vendors, volunteers, and visitors will be subject to new policies, procedures, and oversight designed to promote a safer and healthier environment for teaching, learning, and working, including strategies to protect individuals at higher risk for developing adverse outcomes of COVID-19. Campus Safety will work together with all campus entities to maintain a safe and secure on-site environment.

htu.edu | 512.505.3000

- ▷ All HT faculty, staff, and students must complete an online COVID-19 safety training prior to returning to campus.
- ▷ All entering campus must wear a mask that will remain in place, except in clearly identified designated areas.
- ▷ All visitors/vendors entering the gates will be required to complete a screening to include any or all of the following: a health questionnaire, temperature screening, and/or evidence of recent negative COVID-19 test before proceeding to their destination.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

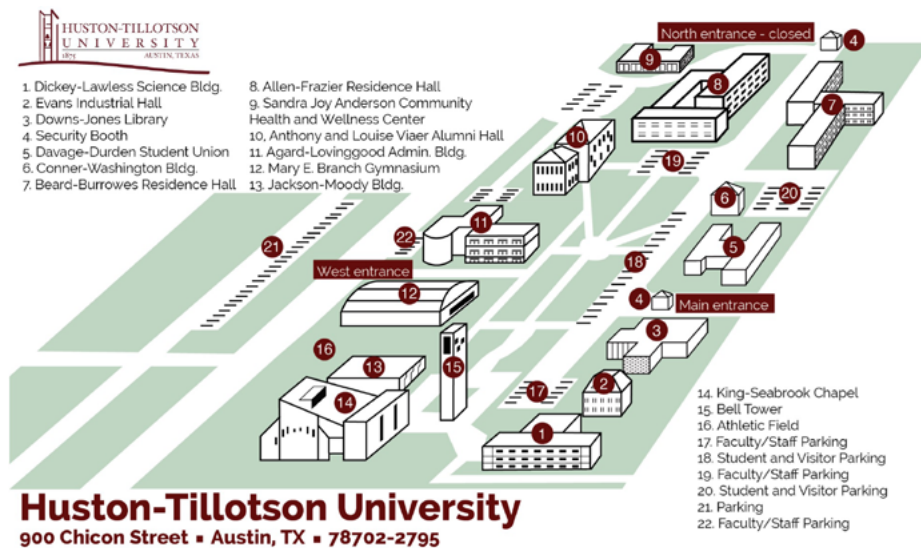

Personal protective equipment enables you to do your part to protect yourself and others. These items will be available at all times throughout the campus:

- ▷ Masks – masks covering the nose and mouth fully must be worn in certain indoor environments. Please see detailed Mask Policy below.
- ▷ Hand sanitizer – these stations, positioned throughout campus, are your second line of defense when hand washing for 20 seconds with soap and water is not available.
- ▷ Physical distancing reminders will be positioned throughout campus.

Failure to adhere to the policies and procedures will result in disciplinary actions for faculty, staff, and students, and campus restrictions for visitors and vendors. Specific guidelines for these protocols for areas such as academic spaces, dining hall, gymnasium, library, and residence halls can be found below in the Enforcement and Accountability section.

CONTROLLED ENTRY AND EXIT POINT CAMPUS ACCESS RESTRICTIONS

Campus entry will be limited to the main entrance gate at 900 Chicon St and the west gate on Chalmers Avenue. These will be the only gates used to enter and exit the campus until further notice. The north campus gate at 11th St will be closed until further notice.

DAILY HEALTH SCREENING

To optimize protection of the HT campus and its surrounding community, individuals who are infected with COVID-19 must be identified and isolated from other community members as quickly as possible. An individual daily health screen is a strategy to augment and support the HT overall surveillance and testing program.

All campus community members will participate in daily health screening consisting of three steps:

1. Daily completion of a symptom and contact questionnaire delivered via app either upon entering campus (for non-resident students, faculty, and staff) or upon exiting the residence hall (for resident students), or on paper as needed for visitors, contractors, and others as needed.
2. Daily temperature check administered at one of several locations throughout campus.
3. Ongoing weekly surveillance testing will be required for certain populations throughout the fall semester, including students, faculty, and staff not providing evidence of a complete COVID-19 vaccination.

MASK POLICY

GENERAL GUIDANCE

Masks are always strongly recommended for unvaccinated individuals or those with conditions such as immunosuppression that may make vaccination less protective. Mask use in corridors and common areas in academic buildings will be consistent with general campus requirements. All individuals are advised to

htu.edu | 512.505.3000

carry a mask with them at all times. Faculty and staff will have a limited number of back-up masks to supply if needed.

ACADEMIC

Mask use requirements for classrooms and all learning spaces (e.g. gymnasium, science labs, etc.) will be determined by the individual faculty member in charge of each class according to the guidelines below. Faculty may decide to make mask use in classrooms and learning spaces optional when the following conditions being met:

- ▷ All individuals in the class (faculty and students and guests) must show green checkmark status on the daily healthy screening app. Green checkmark status means that the individual does not have new COVID-19 symptoms and is either vaccinated or has had a negative COVID-19 test within a week.
- ▷ Social distancing is used in classrooms so that individuals are a minimum of 6 feet apart.
- ▷ HEPA air purifiers are operating on the high setting in all occupied classrooms.
- ▷ HVAC in all academic buildings has been upgraded to MERV13 and is operational.
- ▷ The Austin/Travis County MSA remains at Stage 3 or lower. This information is available on the [City of Austin's Staging Indicators Dashboard](#).
 - » If Austin/Travis County enters stage 4 or 5, masks will be required in all indoor spaces. This overrides individual mask optional policy.
 - » If the Austin/Travis County test positivity rate exceeds 10% for the Delta or other highly transmissible variants, masks may be required regardless of stage.

Faculty office mask use policy will be determined by individual faculty members. Students may request faculty masking during office hour meetings. Faculty should inquire proactively.

Non-classroom academic spaces (e.g. Library, CAE, open computer labs) will have posted requirements.

- ▷ If individuals have green checkmark status on the daily health screening app and social distance and HEPA filtration is in use as described above – masks are optional.
- ▷ If individuals do not have green checkmark status on the daily health screening app or social distance and HEPA filtration is not in use – masks are required

All stakeholders should be advised to carry on their person a mask at all times to avoid not being able to attend class and other conflicts among campus constituents. Faculty will have back-up masks to supply students if needed.

NON-ACADEMIC

Supervising staff for the Residence Halls or those guiding student activities may decide to make mask use optional when the following conditions being met:

- ▷ All individuals in the event space (staff, students, and guests) have shown green checkmark status on the daily health screening mobile app. Green checkmark status means that the individual does not have COVID-19 symptoms and is either vaccinated or has had a negative COVID-19 test within a week.
 - » If individuals have green checkmark status on the daily health screening app and social distance and HEPA filtration is in use as described above – masks are optional.
 - » If individuals do not have green checkmark status on the daily health screening app or social distance and HEPA filtration is not in use – masks are required
- ▷ Social distancing is used in the event space so that individuals are a minimum of 6 feet apart.
- ▷ HEPA air purifiers are operating on the high setting in all occupied spaces equipped with a purifier.
- ▷ HVAC in occupied building has been upgraded to MERV13 and is operational.
- ▷ The Austin/Travis County MSA remains at Stage 3 or lower. This information is available on the [City of Austin's Staging Indicators Dashboard](#).
 - » If Austin/Travis County enters stage 4 or 5, masks will be required in all indoor spaces. This overrides individual event policy.
 - » If the Austin/Travis County test positivity rate exceeds 10% for the Delta or other highly transmissible variants, masks may be required regardless of stage.

Staff office mask use policy will be determined by individual staff members. Students may request staff masking during in-person meetings. Staff should communicate expectations proactively.

ADMINISTRATIVE AND SUPPORT

Mask use requirements for administrative offices and all office spaces (e.g. Human Resources, Financial Aid, etc.) will be determined by the individual staff member in charge of each office space according to the guidelines below. Staff may choose to make mask use in their office space optional when the following conditions are met:

- ▷ All individuals must show a green checkmark status on the daily healthy screening mobile app. Green checkmark status means that the individual does not have new COVID-19 symptoms and is either vaccinated or has had a negative COVID-19 test within a week.
 - » Individuals who have a yellow checkmark status are allowed to conduct business within the office space but must always wear a mask.
 - » Individuals with a red checkmark status are only allowed to engage virtually.
- ▷ Social distancing is used in office spaces when possible so that individuals are a minimum of 6 feet apart.
- ▷ HEPA air purifiers are operating on the high setting in all occupied administrative and office spaces.
- ▷ HVAC in all buildings has been upgraded to MERV13 and is operational.
- ▷ The Austin/Travis County MSA remains at Stage 3 or lower. This information is available on the [City of Austin's Staging Indicators Dashboard](#).
 - » If Austin/Travis County enters stage 4 or 5, masks will be required in all indoor spaces. This overrides any individual mask-optional policy.
 - » If the Austin/Travis County test positivity rate exceeds 10% for the Delta or other highly transmissible variants, masks may be required regardless of stage.

Staff office mask use policy will be determined by individual staff members. Students/Faculty/Staff may request staff masking during office meetings. Staff should inquire proactively.

Non-Administrative spaces (e.g. Student Union, Gymnasium, Community Health Center) will have posted requirements.

- ▷ If individuals have a green checkmark status on the daily healthy screening app and social distance and HEPA filtration is in use as described above – masks are optional.
- ▷ If individuals do not have a green checkmark status on the daily health screening app or social distance and HEPA filtration is not in use – masks are required

All stakeholders should be advised to carry on their person a mask at all times. Staff will have a limited number of back-up masks to supply if needed.

Staff members are responsible for communicating their mask use requirements and checking the checkmark status of those in their office space. Individuals who are not compliant with the policy are considered in violation of the campus Code of Conduct. Staff members may thus contact Campus Safety to enforce these Code of Conduct violations.

GENERAL PRINCIPLES OF PHYSICAL DISTANCING

Per the CDC, physical distancing, also called “social distancing,” means keeping a safe space between yourself and other people who are not from your household. To practice physical distancing, stay at least 6 feet (about 2 arm lengths) from other people who are not from your household in both indoor and outdoor spaces.

Physical distancing should be practiced in combination with other [everyday preventive actions](#) to reduce the spread of COVID-19, including [wearing masks](#), avoiding touching your face with unwashed hands, and frequently washing your hands with soap and water for at least 20 seconds.

COVID-19 spreads mainly among people who are in close contact (within about 6 feet) for a prolonged period. Spread happens when an infected person coughs, sneezes, or talks, and droplets from their mouth or nose are launched into the air and land in the mouths or noses of people nearby. The droplets can also be inhaled into the lungs. Recent studies indicate that people who are infected but do not have symptoms likely also play a role in the spread of COVID-19. Since people can spread the virus before they know they are sick, it is important to stay at least 6 feet away from others when possible, even if you—or they—do not have any symptoms.”¹

Physical distancing considerations for all members of the HT campus community include the following:

- ▶ As needed, use flexible work or learning sites and flexible work or learning hours (e.g., staggered shifts or classes) to help conform to policies and practices for physical distancing (maintaining distance of approximately 6 feet) between people. (see Academics below for specifics on academic spaces and class procedures)
- ▶ Use virtual group meeting options for committee meetings, student organization meetings, advising, tutoring, and any other type of meeting in which the goals of the meeting can be achieved virtually.
- ▶ If meetings or small gatherings cannot be held virtually, the meetings should occur in a location that allows for physical distancing. Limit group size to the extent possible.
- ▶ Many common areas on campus are being reconfigured to encourage appropriate physical distancing.
- ▶ Utilize appropriate ventilation strategies, including air filtration. Portable HEPA filters will be available throughout campus to provide supplemental air filtration alongside building-wide ventilation practices following best practices, including MERV-13 filters, increased air exchanges, and increased fresh air intake.

¹ <https://www.cdc.gov/coronavirus/2019-ncov/prevent-getting-sick/social-distancing.html>

- ▷ Hallways, pathways, queuing areas and restrooms will have signage indicating protocols for physical distancing compliance.
- ▷ Plexiglass shields may be installed in direct customer service centers and other high-contact areas.
- ▷ Use outdoor spaces as weather allows with physical distancing in place.

Large events and gatherings will be altered and/or canceled to ensure size limitations are followed and to adhere to state guidelines. All gatherings of two or more individuals (meetings, classes, student organizations, athletics, etc.) must adhere to all state requirements and federal guidelines.

CAMPUS VISITS/TOURS

All visitors must register and obtain a visitor's pass and adhere to on-campus safety guidelines, such as the requirement to correctly wear masks while on campus grounds as the mask policy specifies.

All visitors/vendors entering the gates will be required to complete a screening to include any or all of the following: a health questionnaire, temperature screening, and/or evidence of recent negative COVID-19 test before proceeding to their destination.

ADDITIONAL VISITATION GUIDELINES INCLUDE:

- ▷ Campus visits/tours will be limited to small groups to adhere to social/physical distancing guidelines. Campus Safety will work with relevant departments to ensure this protocol is adhered to.
- ▷ All individuals in the group must wear a mask as specified by the Mask Policy, with monitoring to be provided by Campus Safety while visitors are on campus grounds.
- ▷ All individuals on tour will be required to complete a questionnaire and get their temperature checked.
- ▷ All individuals on the property must adhere to physical distancing, remaining six feet apart and abstain from physical contact while on campus grounds.

VENDORS AND CONTRACTORS

Vendors and contractors operating on university property must adhere to the same protocols as the University constituency.

USE OF FACILITIES

OUTSIDE GROUPS

The Director of the Center for Civic Engagement and Community Outreach (DCCECO) must approve university facilities by outside groups and follow established university approval processes. Additional information can be found in full section on Campus Events. Campus Safety will enforce the protocols set by the DCCECO.

CAMPUS ORGANIZATIONS

The Director of the Center for Civic Engagement and Community Outreach (DCCECO) must approve student clubs and organizations using campus facilities, and they must follow established university approval processes. Campus Safety will enforce the protocols set by the DCCECO. See Student Affairs below for details of on-campus student life procedures.

TRANSPORTATION

All riders will be required to wear masks, and capacity will be limited on shuttles to provide physical distancing. Improving ventilation by opening windows, when possible, on transport vehicles is recommended as well. The air ventilation/air conditioning systems should be set to non-recirculation mode if the windows cannot be opened.

HYGIENE PRACTICES, CLEANING/DISINFECTING PROTOCOLS

Your safety and building cleanliness are very important at HT. Custodial staff will follow enhanced cleaning and disinfection protocols as directed for all areas of the HT campus. In addition to these efforts, all staff and students will follow CDC guidelines to disinfect personal living and office spaces. Additional deep cleaning of classroom and core spaces will be performed as needed. Many campus spaces will be equipped with a high CADR True HEPA air filtration unit and faculty and staff will be trained in the use of these units.

Custodial staff will clean classrooms, core areas, and common spaces on a daily basis. During hours when classes and other events are being held, housekeeping staff will perform additional cleaning and disinfection. Cleaning and disinfecting supplies will be provided throughout campus, and faculty, staff, and students are encouraged to disinfect their personal space within classrooms and teaching laboratories before and after use. Disinfection includes wiping down commonly touched surfaces with a disinfectant while wearing personal protective equipment recommended for the type of disinfectant used. The type of disinfectant used has been coordinated with the custodial service for consistency and to avoid chemical incompatibilities in various campus spaces such as laboratories. Aerosols and sprays will be used sparingly to avoid damage to the air filtration units.

To avoid disruption, custodial staff will not clean or disinfect computer mice, keyboards, pianos, personal items and other equipment in private offices, practice rooms, and laboratory spaces. Disinfection supplies will be provided to employees for use in disinfecting their workspaces. Employees also may request protective gloves and safety glasses if required for the disinfectant used.

Hand sanitizer stations will be located in strategic locations throughout campus. Strategic locations include all buildings on every level, and especially at athletic facilities, classrooms, computing areas, dining areas, the library, main entrances and other congregation areas and areas with high-touch surfaces. Custodial staff will be responsible for placing, maintaining and refilling hand sanitizer dispensing stations in areas they serve. Facilities staff will be responsible for installing dispensing stations and refilling containers.

ENTRYWAYS AND LOBBIES

No queuing of individuals at entryways will be permitted. It is the responsibility of individuals to keep appropriate distance while entering and exiting facilities.

HALLWAYS AND CORRIDORS

Interactions in hallways and corridors should be as brief as possible to prevent congregation areas. Masks are required.

RESIDENTIAL HALLS

Housekeeping staff will clean and disinfect room interior surfaces, such as appliances, door hardware, furniture, light switches, mattresses, and restrooms before check-in. Students will be responsible for cleaning and disinfecting their own spaces after they move in with approved cleaning materials. High-contact surfaces in common areas will be disinfected at regular intervals.

GENERAL OFFICE SPACE AND SERVICE LOCATIONS

We are evaluating the use of physical barriers including sneeze guards and plexiglass in key reception and student support service areas. If used, barriers will be placed at high traffic areas, such as the library check-out areas, computer labs as appropriate, and food service areas.

htu.edu | 512.505.3000

ON-CAMPUS PROTOCOLS

STUDENT AFFAIRS

The Division of Student Affairs at Huston-Tillotson University is committed to the holistic development of students, demonstrated by programming and services that build upon the University's I.D.E.A.L. core values. Our aim is to empower students to realize their educational goals and achieve personal fulfillment while exposing students to a multiplicity of well-rounded developmental opportunities.

As we enter the 2021-2022 academic year, the Division of Student Affairs recognizes that concerns about the health and well-being of our campus community remain paramount in this season. As such, programming and services offered will function as a hybrid of virtual and in-person opportunities to cater to both developmental growth and personal safety.

All departments under the Division of Student Affairs will adhere to the following procedures:

- ▷ Event registration, temperature checks, and campus policies on masks and physical distancing.
- ▷ Faculty and staff will ask to see "greenlight" status on each student's daily health screening before students enter an event. Faculty and staff must also be prepared to verify their own "greenlight" status for their students.
- ▷ In-person events will not exceed one (1) hour unless otherwise communicated.

Below is a brief overview of each departments' programming and service procedures. Should questions arise, please reach out to the departments via the contact information provided below.

DEPARTMENT	VIRTUAL	IN PERSON	DEPARTMENT SPECIFIC
Campus Life CampusLife@htu.edu	<ul style="list-style-type: none">▷ Registered Student Organization (RSO) and advisor meetings▷ Student Leadership Retreat▷ Student Body Meetings	<ul style="list-style-type: none">▷ Signature programs to include Welcome Week, Homecoming, and RamFest▷ RSOs will have the ability to host in-person events if approved by Office of Campus Life and if all University procedures are upheld	<ul style="list-style-type: none">▷ Room requisitions must be submitted at least two weeks prior to event▷ In-person events will be spaced out by at least 48 hours
Career Services CareerServices@htu.edu	Career coaching sessions	<ul style="list-style-type: none">▷ Information sessions with employers▷ Career Fairs	In-person events will offer a live-stream option if capacity is reached

DEPARTMENT	VIRTUAL	IN PERSON	DEPARTMENT SPECIFIC
Counseling and Consultation Center Counseling@htu.edu	▷ Monthly "Stress Management for Life" events	▷ Spring Wellness Fair ▷ Mental Health Awareness Month events ▷ Y.N.A. events will be held both virtually and in-person	
Disability Services DisabilityServices@htu.edu	▷ Majority of accommodations and exam proctoring	Exam proctoring, if required and pre-scheduled	▷ Meetings with students and/or families
Office of the Dean of Students StudentAffairs@htu.edu	▷ University Judicial Council	▷ Coronation ▷ Annual conferences TBD hybrid or in-person format	
Religious Life Campus Ministry RLCM@htu.edu		▷ Center for Religious Life will be open for use with a capacity of 10 people ▷ Weekly Bible Study with 15-person capacity ▷ Chapel in person with restrictions	Signature programs will resume in person with a possibility of live streaming

DEPARTMENT	VIRTUAL	IN PERSON	DEPARTMENT SPECIFIC
Residence Life ResLife@htu.edu	▷ Some events will remain virtual	▷ Residential housing will be open in limited capacity with priority to incoming freshman ▷ COVID-19 vaccination or an approved notarized exemption for all residential students (i.e., students that live on campus). ▷ Programming for residential students may be offered in person with capacity restrictions	▷ For students not providing an official COVID-19 vaccination record, a negative COVID-19 test result will be required prior to move-in to the Residence Halls ▷ Masks are required unless student is in their room ▷ Use of common areas will be restricted ▷ Visitation will be suspended for the Residence Halls ▷ No visitors in student rooms ▷ Specific information about move-in procedures, building protocols, and residential student protocol will be communicated via email and forthcoming trainings. ▷ Failure to adhere to residential procedures could result in a University Conduct violation and/or forfeiture of housing
Student Development Email pending.	TBD	TBD	TBD

DINING

Campus dining will operate with modified service, including limited seating to facilitate physical distancing in the dining room, providing meals to-go, and extended hours to allow for service to accommodate the dining hall modifications. In addition to main service in the dining hall, the Ram's Café will take online orders for pick-up in addition to walk in to-go orders.

A La Carte Menu Services, Inc. (ALC) provides food services for Huston-Tillotson University. The following hygiene and safety protocol have been developed to comply with CDC, state, and local standards that have been put in place due to COVID-19. ALC monitors updates and changes enacted by agencies and state and

local governments and adjust our protocol based on those changes. Moreover, ALC and HT administration work in tandem to assure adherence with protocols set by Huston-Tillotson.

MODIFIED CAFÉ SERVICES

The meal hours may be extended to allow for the capacity restrictions of the dining hall. Physical/physical distancing procedures will apply to the dining hall and dining services in alignment with general campus policy. Distance markers will be placed in front around service areas in the cafeteria to indicate physical distancing of 6-ft for customers and team members. Based on current guidelines, seating in the cafeteria will be reduced to 60 from 165. To facilitate the flow of service, every person entering the dining hall will enter through the interior union entrance and exit through the rear, exterior door.

In addition to main service in the dining hall, the Ram's Café will take online orders for pick-up in addition to walk in to-go orders. The dining menu will be reduced as kitchen staff will be reduced in accordance with physical distancing.

In order to meet physical distancing mandates, the menu will need to be adjusted to accommodate appropriate distancing with culinary staff.

- ▷ All items served, included but not limited to, prepared food, beverages, and condiments will be only served by ALC employees through a safe and developed process approved by ALC, Huston-Tillotson, and pursuant to government mandates.
 - » All food and drink items will be packaged by an ALC server and kept behind the counter away from customer reach/access.
 - » Self-serve options will be eliminated, and all items, including beverages, will be served to customers.
 - » Salad Bar and Deli will be a combined station.
- ▷ ALC will stop service in order to disinfect high touch surfaces as needed.

REVISED ORDERING AND PAYMENTS

- ▷ An online ordering system is being developed to be used for all campus and off-campus orders. The online system will allow the customer to pre-order, pre-pay and will limit vendor-customer interaction.
- ▷ Customers will be encouraged to download the Huston-Tillotson University Dining mobile application. More information on the mobile application is coming soon. Customers will be able to access online ordering using an Apple or Android device.
- ▷ Cash will not be accepted as a form of payment.
- ▷ To facilitate physical distancing, meals ordered online can be assigned a pickup time, thereby reducing the number of individuals waiting in line.

DINING HYGIENE AND SAFETY

- ▷ Per university requirements, all employees and vendors will complete the daily COVID-19 screening assessment form.
- ▷ EPA approved hand sanitation stations are currently set up at the entrances/exits for customer use. ALC also has sanitation stations signs that can be posted.
- ▷ All employees will wear face masks while on duty.
- ▷ Hand washing will be done prior to start of shift, after using the restroom, before handling food and drinks, after touching phone or POS system iPad/tablet.
- ▷ The handwashing process will also take place during the 15-minute disinfectant production. Handwashing will take place at a hand washing sink, with warm water, hand soap, lather, and scrub for 20 seconds, and hands dried with a disposal paper towel, and paper towel placed in the trash can. Signage has been developed and used to remind employees.
Note: This 15-minute production, does not replace the proper hand washing procedures that is expected when changing tasks, leaving the restroom, taking out trash, etc.
- ▷ Per ServSafe and ALC policies, Food Service Handlers are required to wear gloves when handling food. ALC will continue to have employees wear gloves throughout the shift and change them regularly.
- ▷ Handwashing will be done between glove changes, upon return from breaks or leaving the cafeteria, after touching hair, face or body.
- ▷ Team members will be trained and reminded to not touch their faces. If employees touch their hair or faces, they will be required to wash their hands and change gloves.
- ▷ ALC employees will also be required to wear masks at all times throughout their designated shift. Masks will be provided by ALC. The mask policy is in place to ensure safety, prevention of the spread and contraction of COVID-19.
 - » **Note:** If an employee is in violation of the mask policy, the employee will be asked to leave the building, and written documentation will be issued to that employee.
- ▷ Team members are required to wear ALC headwear or hair nets.
- ▷ All team members' ALC uniforms will be checked for cleanliness.
- ▷ ALC utilizes EPA approved disinfectant used to regularly sanitize countertops, frequently touched and other surfaces regularly.
- ▷ Employees feeling/experiencing symptoms of sickness will be required to stay home or will be sent home if presented with symptoms.
- ▷ Before an ALC employee who has presented with symptoms can return to work, he/she must provide a clearance notice from a physician or provide proof of a having received a negative result from a COVID-19 test.

COMMUNICATIONS PROTOCOL

- ▶ Signage for employees will be posted in various locations in and around the food-service areas as a reminder of the protocols for hygiene and safety, handwashing, physical distancing, cleaning and sanitization, coughing and sneezing etiquette, symptoms of illness policy, etc.
- ▶ Customer signage will be posted in various locations around the Dining Hall and Rams Café as a reminder of physical distancing, coughing and sneezing etiquette as well as the online ordering, prepayment and order pick processes.
- ▶ Additional signage regarding 6-foot distancing with the HT Rams logo will be created and used.
- ▶ Posting regarding COVID-19 information will be shared as made available by the CDC and State of Texas.

TRAINING

- ▶ All ALC employees will be provided training on the new protocols to assure effective execution of the plan. The training will be conducted in advance of reopening of the facility. Training will also be provided to employees about behavior outside of the workplace.
- ▶ University reactivation training sessions will be coordinated to allow for ALC Team attendance.
- ▶ All vendors servicing the A La Carte – Huston-Tillotson account will be required to follow the same protocols as ALC employees.
- ▶ A letter will be sent to vendors sharing the prescribed protocol.

ACADEMICS

CLASSROOM REENGAGEMENT

INSTRUCTION AND MANAGEMENT OF INSTRUCTIONAL SPACES

The plan for instruction and management of instructional spaces is integrated with overall University plans for facilities and personnel management. If the pandemic landscape changes, then campus protocols will be re-evaluated and may be scaled back as recommended by local and national public health entities. Monitoring of the community-based risk level will include indicators such as new hospital admissions, the 7-day moving average of hospitalizations, number of patients in the ICU, ventilator usage, positivity rate, and the 7-day moving average of cases.

INDIVIDUALS

1. In keeping with overall campus policy, only students, faculty, and staff who have passed a daily health screening will be allowed into instructional buildings and spaces. Refer to Daily Health Screening for the required screening steps.
2. Faculty members will ask to see “greenlight” status from each student’s daily health before students enter the classroom. Faculty must also be prepared to verify their own “greenlight” status for their students. Faculty members may administer temperature checks if student requests one, if the student appears symptomatic.
3. Per the Mask Policy above, mask use requirements for classrooms and all learning spaces (e.g. gymnasium, science labs, etc.) will be determined by the individual faculty member in charge of each class according to the guidelines below. Masks are always strongly recommended for unvaccinated individuals or those with conditions such as immunosuppression that may make vaccination less protective. Mask use in corridors and common areas in academic buildings will be consistent with posted building requirements.
4. Failure to adhere to masking guidelines, health screening guidelines, or the physical distancing guidelines implemented in each classroom or building will result in a student being excluded from instructional spaces. Faculty must similarly comply or be denied entry into buildings. See Campus Safety and Shared Responsibility section.
5. A supply of masks will be available in each classroom, lab room, or computer lab to help replace damaged or ill-fitting masks.

INSTRUCTIONAL SPACES

1. Each instructional space (classroom, lab, computer lab) will be equipped with a high CADR True HEPA air filtration unit and all faculty, including adjunct instructors, will be trained in the use of these units. Faculty members are responsible for keeping the filtration units on during their classes.

Students and colleagues should be empowered to report faculty who do not do so to Department Chairs and Deans.

2. High touch surfaces (doorknobs, desk surfaces, light switches keyboards, computer mice) will be cleaned with an appropriate disinfectant as needed. Cleaning wipes will also be provided inside classrooms so that faculty members can perform additional cleanings as desired.
3. Signage indicating seating and spacing (physical distancing) may be employed in each classroom, lab room, and computer lab. Students who are using these spaces as study areas, as well as students using open computer labs must continue to comply with physical distancing, mask use, and use of air filtration units.

DECREASING EXPOSURE IN THE CLASSROOM

1. Instructors will employ hybrid and/or blended models of instruction whenever possible to reduce the number of people meeting in-person at any one time. This means that courses will combine face-to-face instruction time and both synchronous and asynchronous online components. During instruction time, some students will be present in person while others are connected remotely via classroom technology that allows for teleconferencing. Students will alternate between in-person and remote attendance, but all sessions will take place in real time (synchronous). Classes will be split into smaller groups for in-person portions, which reduces exposure by allowing for appropriate spacing in the classroom and effective air handling. This model will also accommodate students who are isolated or in quarantine, or those who for health reasons may need to engage online.
2. If classes are low enrollment (such that the meeting room would be at 1/3 capacity), faculty members may opt to meet entirely in person as long as they are following other guidelines (i.e., masks, use of air filtration strategies, meeting outdoors, health screenings).
3. Technology to accommodate hybrid instruction will be installed and instructors trained in preparation for the fall 2021 semester.
4. Online-only sections will be available in addition to synchronous hybrid/blended sections for selected courses.
5. If the pandemic landscape changes, then campus protocols will be re-evaluated and faculty may increase the number of in-person sessions, as recommended by local and national public health entities. Monitoring of the community-based risk level will include indicators such as new hospital admissions, the 7-day moving average of hospitalizations, number of patients in the ICU, ventilator usage, positivity rate, and the 7-day moving average of cases. This decision will be made at the University level.
6. Classroom situations that result in exposures beyond that for a typical class include vocal performance and brass and wind instrument performance classes. For these courses, equipment and practices to mitigate aerosol generation and spread will be implemented, included but not limited to:
 - a. instrument covers
 - b. special purpose masks

- c. increased physical distancing

These plans will be discussed with the Dean and Provost for approval before implementation.

7. Courses that include local field trips may proceed if the following guidelines are used:

- a. Individuals transport themselves to the site. If a University van is used, it may be used at half capacity with the windows lowered.
- b. The field trip site utilizes COVID-protocols such as masks and distancing or is an outdoor space.

htu.edu | 512.505.3000

CENTER FOR ACADEMIC EXCELLENCE (CAE)

The facilities and programming of the Center for Academic Excellence (CAE) will follow all university policies and standards regarding safe operation during campus reactivation. Staff and PLCs will monitor the spaces for adherence to masking and physical distancing guidelines.

For all CAE facilities:

- ▷ Masks usage will be determined per the Mask Policy for academic spaces above.
- ▷ CAE staff will confirm “greenlight” status of each student’s daily screening status before students enter. Faculty and staff must also be prepared to verify their own “greenlight” status as well.
- ▷ A limited supply of masks will be available at the main entrance.
- ▷ Document all students and tutors using center to facilitate contact tracing as needed.
- ▷ Available seating will be marked to maintain appropriate physical distancing.
- ▷ Maximum occupancy in labs/rooms will be set to maintain appropriate physical distancing.
- ▷ Signage will indicate one-way flow of traffic through the CAE facilities as possible to facilitate physical distancing
- ▷ Seating will be marked to indicate appropriate physical distancing.
- ▷ CAE events may host events as deemed possible, following general University event and student life policies. See protocols in Student Affairs.

TUTOR, PEER-LEARNING COORDINATOR, AND STAFF PROCEDURES

- ▷ In-person appointments will be by appointment only
 - » Academic Advising appointments will be appointment only.
 - » PLC appointments may be appointment only.
 - » PLC Appointments to be conducted on the patios as weather allows to enable more space for tutoring.

MATH LAB COVID-19 PLAN (DICKEY-LAWLESS 110)

- ▷ The Math Center will operate using a hybrid model for math tutoring where students can choose between in person help or online help. In-person appointments might be by appointment only

WRITERS' STUDIO COVID-19 PLAN (JACKSON-MOODY 113)

- ▷ The Writers' Studio will operate using a hybrid model for math tutoring where students can choose between in person help or online help.
 - » In-person appointments may be by appointment only

CENTER FOR ENTREPRENEURSHIP AND INNOVATION

The HT Center for Entrepreneurship and Innovation (CEI) is a satellite campus site located in the Springdale General Business Complex, which is approximately 2.5 miles from the main campus. Springdale General's COVID-19 safety guidelines are in keeping with those of the city, state, and CDC. General campus operating procedures will apply in the CEI.

CEI GUIDELINES TO LIMIT EXPOSURE

- ▶ Mask usage will be determined throughout the CEI space per the Mask Policy above for academic spaces.
- ▶ Entrances will be limited to allow for physical distancing and capacity control in the space.
- ▶ Faculty and staff will confirm “greenlight” status of each student’s daily screening status before students enter. Faculty and staff must also be prepared to verify their own “greenlight” status as well.
- ▶ Kitchenette and coffee station usage will be limited.
- ▶ Temporarily, food is not allowed in the CEI space.
- ▶ High-touch shared supplies/tools are kept at front desk with disinfectant (whiteboard markers, remote controls, tape dispensers, etc.).

PHYSICAL DISTANCING

- ▶ For classroom purposes, the CEI space will not exceed a capacity that accommodates proper physical distancing. Capacity will be evaluated on an ongoing basis as the situation warrant.
- ▶ Currently, no community events are allowed in the CEI space. This issue will be revisited in August 2021.
- ▶ Physical distancing within the facility will be achieved through a variety of means, including but not limited to spacing of desks, reserved seating, and reduced room capacity.

INCREASE CLEANING

- ▶ Custodial staff will follow enhanced cleaning and disinfection protocols as directed
- ▶ As needed, students, faculty, and staff will clean their desks and chairs after use.

ATHLETICS

Intercollegiate Athletics will resume in Fall 2021. As with all reactivating university operations, athletics will follow the guiding principles. Athletics strategies will address student-athletes returning to campus, navigating campus life, and best practices and required protocols for maintaining a successful athletics season. In addition to all campus policies and procedures, student-athletes may be subject to additional NAIA policies.

We will all do our part collectively to minimize the spread of COVID-19 knowing that what we do as individuals, teams, and department will determine the success of our year for all. In addition to the Campus Reactivation Committee, an Athletics COVID-19 task force has been assembled and collaborating to ascertain needs in key areas.

- ▶ COVID-19 vaccination or an approved notarized exemption are required for all student athletes.
- ▶ Provide resources for the appropriate levels of screening and rapid testing to sustain participation.
- ▶ Gather and effectively communicate guidelines and protocols for the use of PPE, physical distancing, and other measures to reduce the spread of COVID-19 and ensure the mental health and well-being of students and staff.
- ▶ Ensure athletics staff is prepared with appropriate resources, equipment, and protocols for operation and infection control.

Athletics reactivation will follow a three-part strategy to address student-athletes returning to campus, navigating campus life, and best practices and required protocols for maintaining a successful athletics season. In addition to all campus policies and procedures, student-athletes may be subject to additional NAIA policies.

STEP 1: PREPARE IN PLACE

To mitigate and identify any existing infections, student-athletes will be asked to prepare in place at their current residence or move into their college residences 10 days prior to the start date of practices. Any student-athlete unable to move into school-year residence 10 days prior to reporting for team functions is asked to self-isolate at their primary residence. Self-isolating means staying at home with no visitors and not visiting anyone outside of the primary residence.

htu.edu | 512.505.3000

STUDENT-ATHLETE ORIENTATION

Student-athlete orientation will be conducted virtually before reporting to campus and will include videos, knowledge assessments, and a pledge for students to complete before participation.

Education is key and awareness will increase buy-in to the overall mission. Our families will see that athletics aims to protect and support higher-risk individuals while providing competitive opportunities for our campus.

INTERNATIONAL STUDENT ATHLETES (ISAS)

Upon entering the United States, the CDC recommends all international travelers self-quarantine for 14 days. During this 14-day period, ISAs will report arrival to their head coach and be instructed to take these steps to monitor health:

- ▷ Log temperature with a thermometer two times a day to monitor for fever.
- ▷ Watch for coughing or trouble breathing.
- ▷ Stay home and avoid contact with others. Refrain from visiting stores, work, or school.
- ▷ Eliminate use of public transportation, taxis, or ride-shares.
- ▷ Keep your distance from others (6 feet or 2 meters).

If symptoms arise, student-athletes will follow campus policy for reporting symptoms and self-isolation.

RESIDENCE HALL REQUIREMENT

Student-athletes are encouraged to live in the HT Residence Halls. Please reference the “Residence Life” section and reach out to ResLife@htu.edu for more information.

MENTAL HEALTH CONSIDERATIONS

Due to the rise in self-reported mental health issues including anxiety, sleeplessness, and difficulty focusing during the pandemic’s isolation and forced inactivity, HT athletics will proactively implement programs to support our student-athletes, in conjunction with campus mental health services.

STEP 2: CAMPUS LIFE

Student-athletes will create a culture of compliance with their attitude of teamwork focused on accomplishing the goals determined in each sport program. The University will focus on finding ways to enable rather than reducing.

MASKS, HAND WASHING, AND PHYSICAL DISTANCING

- ▶ Student-athletes and athletics staff will be required to wear masks per the university Mask Policy for indoor practices, strength and conditioning sessions, travel (in vehicles and hotel areas), on the bench/sideline, and similar gatherings. HT will respectfully follow facility rules when visiting any off-site venues.
- ▶ Coaches will be required to maintain physical distancing during practices and competitions.
- ▶ In-office appointments with coaches or other athletics staff will be scheduled in advanced via the Bookings application.
- ▶ Sport programs will use virtual team or staff meetings whenever possible.
- ▶ Practice drills will be designed to implement physical distancing between players when possible, i.e., live scrimmages will be limited.
- ▶ Everyone entering the Mary E. Branch Gymnasium will be encouraged to wash their hands, especially before touching any equipment. Proper handwashing procedures will be posted at all hand sinks.
- ▶ Travel parties will be limited to necessary personnel to allow for distancing.
- ▶ Travel meals will be taken curbside/to-go or eaten in separate reserved patios or dining rooms.
- ▶ Gathering in public places will be avoided by scheduling report locations on bus or areas away from halls and doors.
- ▶ Visiting teams, officials, sideline staff, and spectators will be restricted to separate designated areas which will be closed on game day for appropriate pre- and post-sanitization.
- ▶ Areas used by academic classes will be access path-limited and sanitized before and after use. Scheduling will allow for treatment with prescribed drying time.

HEALTH SCREENING

- ▶ Per National Associate of Intercollegiate Athletics (NAIA) requirements, all staff and student-athletes will be required to self-screen and report results daily by 0900 to the COVID Coordinator in order to participate that day in any athletic activities.
- ▶ Student-Athletes, coaches, game personnel, and visiting teams will be screened again for entry prior to each competition. (See Game Day).

htu.edu | 512.505.3000

- ▷ Per NAIA requirements, visiting teams will submit a travel roster 24 hours before arrival and test and screen before departing their home location. Travel parties will be screened before entering the HT facility. Anyone presenting symptoms will be deemed Medically Disqualified (MDQ) and sent to isolate in a predetermined location per sport.
- ▷ All game-day participants will be screened in separate groups and results will be reported to the sports medicine staff when follow-up is required.
- ▷ Screening will take place at a predetermined location and time-before-game respective to sport.
- ▷ When entering the screening location and after being screened, individuals must wear masks and should utilize hand sanitizer. Masks and sanitizer dispensers will be made available at upper and lower entrances and off-site field gates.

POTENTIALLY ILL INDIVIDUALS AND THEIR CLOSE CONTACTS

Any student-athlete showing symptoms of COVID-19 will be subject to campus policy and protocol. In addition, to campus policy student-athletes will be:

1. Denied entrance to the facility and/or event.
2. Student-athletes will not be able to compete.

Contact tracing will be conducted in adherence with the Health Insurance Portability and Accountability Act (HIPAA) by the COVID Coordinator and Sports Medicine staff in conjunction with other relevant university personnel and local health districts.

RETURN TO PLAY POST-COVID INFECTION

When a primary care physician has cleared a student-athlete to begin exercising again after COVID-19 infection, a student-athlete will start a Return-to-Play protocol (RTP) with seven phases. . Each phase takes at least 24 hours to complete. Upon progress through the RTP, the attending physician will sign a release to return to full participation or will require additional conditioning or testing.

8-10% of post-infected patients have acute carditis, so a physician will need to assess any loss deficit and make determinations based on the sport-specific needs. Performance coaches will collaborate with sports medicine staff to monitor and progress these individuals safely. If at any point symptoms return, participation must suspend until resolution.

GAME DAY

Planning and execution are key to allowing teams to stay focused during HT competitions so that health concerns and COVID procedures are not a debilitating distraction.

Each sport program will meet one week before their first home game with game day staff from Administration, Sports Medicine, Security, and Sports Information to walk through the game day plans for staging the teams and staff, deciding appropriate timing, and map spacing. Attention will be given to creating clearly labeled game day bins for necessary equipment and supplies.

Facilities will be blocked off for proper sanitization before and after each unit enters their assigned space.

SPECTATORS

There will be limited spectators at indoor competitions. Physical distancing will be enforced with signage and physical barriers to delineate restricted areas. Screening of spectators will occur at the ticket counter/table. Masks will be required at all times indoors. Outdoor venues will have their own requirements and HT spectators will be notified when placing their ticket requests what to expect.

Reserved seating will be offered via an online ticketing app. Families and Students/Staff will be given first access priority and remaining tickets offered to community after safety is assured.

Live streams will be made available for most home competitions.

COMMUNITY SERVICE / BANQUETS

Athletic teams will not host nor attend any athletic banquets until further notice. Modifications for virtual banquets will be implemented, when applicable.

Athletic teams will not conduct any community service activities on site, i.e. sports camps, volunteerism, etc. Teams will be encouraged to develop and implement community service projects that can be done virtually, remotely, or otherwise remaining within guidelines for physical distancing that allows for limited contact with the public, i.e. food bank, clothing sorting, community garden, outdoors activities.

TEAM TRAVEL

Health Screening

Health screenings will take place before boarding for travel to the game, morning of game, and as individuals exit the bus to enter the facility..

Personal Protective Equipment

Masks are recommended when traveling. Thermometers and extra masks will be provided for each travel party.

Meals

Team meals when traveling will be carry out or delivery. Sit down meals will be in reserved areas and as a last resort.

Hotels

Two persons per room. One person per bed. Students should stay in their hotel room with their roommate as much as possible.

STEP 3: SUSTAINING SUCCESS

PREVENTION AS CURE

The most effective strategy to mitigate COVID-19 spread includes the following:

Personal

- ▷ Physical distancing.
- ▷ Universal masking is recommended, especially when physical distancing is not possible.
- ▷ Hand hygiene, especially after touching frequently used items or surfaces.
- ▷ Using a tissue, or the inside of your elbow, to sneeze or cough into.

htu.edu | 512.505.3000

- ▷ Avoid touching your face.
- ▷ Disinfecting frequently used items and surfaces as much as possible.
- ▷ Staying home if you feel sick and following the advice of your health care provider.

Local/institutional

- ▷ Safe, efficient screening and testing sites for symptomatic individuals and trace contacts.
- ▷ Surveillance, including contact tracing.
- ▷ Isolation for new infections and quarantine for high-risk exposure

CLEANING, EQUIPMENT, AND FACILITIES

Enhanced Cleaning

An enhanced cleaning protocol will be followed for frequently touched surfaces and equipment. Schedules will be developed for increased and routine cleaning and disinfecting of equipment and surfaces for each program. Enhanced cleaning of team areas including weight room, benches, locker rooms, athletic training rooms, warm-up areas, etc. will be implemented.

Equipment

Teams will limit the amount of shared object and equipment when possible.

- ▷ Designated cohorts will be utilized during training sessions for each program based upon a variety of circumstances to include living arrangements, commuter status, and positional groups.
- ▷ Designated equipment will be utilized by each cohort. Additional equipment (helmets, bats, bands, pinnies) will need to be purchased to accommodate reduced sharing.
- ▷ There will be no sharing of towels and water bottles amongst teammates.
- ▷ All student-athletes will be required to have a water bottle that they are responsible for bringing, cleaning, and taking home each day.
- ▷ Water jugs will be available at each practice/competition where monitoring is available; however, it is the responsibility of each student-athlete (home or away) to bring their own water bottle.

Facilities

- ▷ Mary E. Branch Gymnasium facility access will be limited to university classes and athletic team-only activities. There will be no unscheduled voluntary workouts allowed.
- ▷ The Mary E. Branch Gymnasium facility will be closed to faculty/staff and students for recreation purposes until further notice.
- ▷ Intramural sports and recreational activities will be conducted outdoors only.

- ▷ Locker rooms and restrooms will be open on rotating basis determined by cleaning schedules.

Athletic Weight Room

Small cohorts of no more than 12 people will be rotated into the weight room for training sessions.

Enhanced cleaning will be used as needed on all equipment. Custodial crews will clean the room's waste, floors, and doors daily.

There will be no access to locker rooms for practices and training sessions. Student-athletes should come prepared to training sessions, practices, competitions, and other athletic activities. Lockers for valuables will be provided, but locks are not.

Athletic Training Room Clinic (ATRC)

- ▷ The ATRC services are available by appointment only or scheduled time blocks for teams with physical distancing and mask requirements in place. Telehealth appointments are advised for consultations.
- ▷ Access is by hall entrance only. No through-access to weight room or team offices.
- ▷ Everyone entering the ATRC will first be required to wash their hands, especially before touching any equipment. Proper handwashing procedures will be posted at both sinks.
- ▷ The clinic waste, floors, doors, and sinks will be cleaned as needed by custodial staff. Therapeutic equipment and tables will be sanitized between each appointment by Sports Med staff.
- ▷ Sports Medicine staff, including Student Athletic Trainers, will be instructed in safe practices and provided proper PPE. A binder of MSDS and current practice protocols will be maintained and readily available.
- ▷ Treatment towels and therapy and rehabilitation equipment will be sanitized between each usage.
- ▷ Hydrotherapy is available by appointment only with 24 hours advance notification.

htu.edu | 512.505.3000

TRAVEL

HT discourages travel for students, faculty, and staff for academic and extracurricular activities. However, as more people are fully vaccinated, there is the expectation that increased opportunities for safe travel will become available. The CDC recommends delaying travel until you are [fully vaccinated](#), because travel increases your chance of getting and spreading COVID-19. If you are not fully vaccinated and must travel, follow CDC's recommendations for unvaccinated people.

DOMESTIC TRAVEL (NON-ATHLETIC)

University policy will mirror current [CDC guidelines](#) on domestic travel. The CDC recommends the following basic COVID-19 safety guidelines even **for travelers who are fully vaccinated** while they are traveling:

- ▷ **Wear a mask** on planes, buses, trains, and other forms of public transportation as well as airports traveling in or out of the United States.
- ▷ Avoid crowds and **stay at least 6 feet** from anyone who is not traveling with you.
- ▷ **Wash your hands** often or use hand sanitizer.

Visit the [following CDC site for domestic travel policies](#) for recommendations regarding the various aspects of traveling, including:

- ▷ Before you travel
- ▷ While you are traveling
- ▷ Returning travelers

HT-sponsored travel for faculty or staff for official business requires an approved Travel Training Request in advance of making travel arrangements. HT-sponsored travel must comply with state and local regulations in place at the destination. These include guidance on masks, physical distancing, and mass gatherings.

For domestic travel guidance pertaining to athletics, refer to the Athletics Team Travel section of this document.

INTERNATIONAL TRAVEL

For guidance on international travel, HT will refer to the [policies of the Centers for Disease Control and Prevention \(CDC\)](#). The interim protocols below are COVID-19 international travel safety guidelines as of April 2, 2021. These guidelines will be updated as needed and as additional information becomes available.

Given the on-going list of countries categorized as high or very high risk for COVID-19 by the CDC, the HT Office of International Programs (OIP) is postponing or canceling international travel for all activities, including education abroad, for the foreseeable future.

The recommendation to postpone or cancel international travel is based on CDC's policies regarding international travel by Institutes of Higher Education. The CDC warns that international travelers may face "unpredictable circumstances, such as [domestic and destination country] restrictions, challenges accessing health care while abroad, and challenges returning home."

However, international travel petitions for "special travel" circumstances will be entertained by the Office of the Provost and the OIP. If approved for an international trip, the HT traveler:

- ▶ Should evaluate the risks in the destination country by checking [CDC's COVID-19 Travel Health Notices by Destination](#) and [The U.S. Department of State's Travel advisories](#).
- ▶ Must adhere to the most current [CDC guidelines](#) and quarantine requirements in the destination country.

Decisions about the international travel policy will be updated immediately with new CDC travel announcements.

CAMPUS EVENTS

Huston-Tillotson University is following the Centers for Disease and Control Prevention, State of Texas, Travis County, and City of Austin mandates and guidelines for on campus gatherings due to the COVID-19 or 2019-nCoV pandemic.

The University safety protocols include, but are not limited to, physical distancing, masks, hand sanitizing in indoor and outdoor spaces.

The group organizer will initial each item below and return this document to gain admittance to the campus (also provided on page 61):

____1. The group organizer ensures that each person admitted has a temperature under a general guideline of 98.6°F or 37°C prior to entering campus and will check temperatures daily while on campus.

____2. The group organizer ensures that each person admitted has completed a brief questionnaire indicating their current health condition, exposure to others, and travel prior to arriving on campus.

____3. The group organizer ensures that each person admitted has a mask to be worn as specified by campus mask policy.

____4. The group organizer has measures in place to ensure physical distancing.

____5. The group organizer has measures in place to limit sharing of food, beverages, clothing, and shelter.

____6. The group organizer has signed an assumption of risk and/or required each underage attendee to sign an assumption of risk.

____7. The group organizer understands that additional charges may be applied in advance for janitorial and grounds services to maintain a clean, healthy environment.

____8. Liability insurance is required for groups and individuals scheduling facilities. The certificate holder should read: Huston-Tillotson University, 900 Chicon Street, Austin, TX 78702. Huston-Tillotson University and its employees assume no liability from accidents, injuries, losses, thefts, or claims hereto.

Thank you for your support and ensuring the safety of you, your group, and the Huston-Tillotson University community.

I have read the guidelines, fully understand, and agree to comply. If applicable, I have attached a copy of the liability policy for this event.

htu.edu | 512.505.3000

ENFORCEMENT AND ACCOUNTABILITY

STUDENTS

Failure to follow required University COVID-19 protocols, including masks, training, physical distancing, proper use of facilities including ventilation practices and other COVID-related protocols is considered, at a minimum, a basis for violation of section 7.5.2 Overview of the Code of the Student Code of Conduct in the HT student handbook.

<https://htu.edu/wp-content/uploads/2020/08/HT-Student-Handbook-Vol-VII-08312020.pdf>

FAILURE TO COMPLY

Students: Failure to comply with HT COVID-19 protocols the first time will result in a warning. Repeated violations of this policy may result in suspension from campus.

FACULTY AND STAFF

Failure to follow required University COVID-19 protocols, including masks and training requirements, is considered, at a minimum, a basis for violation of section 5.4 Of Employee Conduct and Work Rules In the Policy Manual Volume V.

<https://htu.edu/wp-content/uploads/2011/06/V-Admin-Staff-10.6.2016.pdf>

FAILURE TO COMPLY

Faculty and Staff: Failure to comply with HT COVID-19 protocols the first time will result in a warning. Additional disciplinary actions will follow the progressive discipline policy outlined in the appropriate handbook.

COMMUNICATIONS STRATEGY

Ongoing communications will come from the University leadership, University Reactivation Committee, and the Safe & Healthy Rams Coordinator. Communications will be multi-platform to ensure timely, accurate, and comprehensive means of information distribution. These platforms include email communications, dedicated website pages, social media posts, videos, text messages, and physical and digital messages and signage on campus.

The [Safe and Healthy Rams website](#) has been created to serve as a central location for other vital communications to students, faculty, staff, campus visitors, and our community. The website is the community's source for the latest communications, clear guidance, policies, and commonly requested information. The safehealthyrms@htu.edu email has been created to serve as a central communication point for questions regarding these policies and procedures.

This regularly updated document will be available [here](#). In addition, the community will be notified by email of important updates. Social media will be used to communicate campus reactivation information and guidance, including campus procedures, such as face mask requirements, health and safety practices and protocols, and campus operations.

Signage will be posted to provide health and safety information, directional changes to the campus to ensure appropriate physical distancing, as well as well-being protocols for specific areas on campus. Signage will be both physical and digital across campus.

ORIENTATION AND EDUCATION/TRACING

All members of the HT community – faculty, staff, and students – will engage in training. This training will inform all members of the campus community of the risks of COVID-19, as well as steps they can take to mitigate its spread, and updated campus policies and procedures designed to protect the HT community.

MONITORING HEALTH CONDITIONS TO DETECT INFECTION

DAILY HEALTH SCREENING

To optimize protection of the HT campus and its surrounding community, individuals who are infected with COVID-19 must be identified and isolated from other community members as quickly as possible. An individual daily health screen is a strategy to augment and support the HT overall surveillance and testing program.

All campus community members (faculty, staff, students, and daily on-site contractors) must complete a daily health screen before reporting to campus or, for residential students, before leaving the residence hall. The daily health screen screening may include any or all of the following: a health questionnaire, temperature screening, and/or evidence of recent negative COVID-19 test before proceeding to their destination. The screening tool will be available via a free, downloadable smartphone application, or available online. Completion of the screening tool will result in a “greenlight” status for those cleared for campus. This “greenlight” status may be checked at key locations and times, such as the start of class and when entering the dining hall.

All visitors (prospective students/families, short-term onsite contractors, day visitors) must complete a daily health screen upon check-in at the security booths on arrival to campus. Health screening may include any or all of the following: a health questionnaire, temperature screening, and/or evidence of recent negative COVID-19 test before proceeding to their destination. Any visitors with a positive symptom will not be permitted on campus and will be instructed to immediately contact their primary care provider. If the visitor with the positive symptom is part of a visiting family group, the entire group will be rescheduled for a later on-campus visit date.

CAMPUS LEVEL SYNDROMIC SURVEILLANCE

Surveillance, as defined by the CDC, is the ongoing, systematic collection, analysis, and interpretation of health-related data essential to planning, implementation, and evaluation of public health practice. HT will use multiple sources of data to create an updated picture of COVID-19’s spread and its effects on the HT campus community, thus informing the University’s effective response to support the health and safety of students, faculty, staff, and campus visitors.

Surveillance data includes cases of confirmed COVID-19 infection within the campus community, number of quarantined campus community members; faculty, staff, and student absenteeism; identified campus outbreaks of COVID-19 on campus; and COVID-19 prevalence data in Travis County and Texas.

The Safe & Healthy Rams Coordinator navigates all COVID-19 incidents reported and follows up on all leads, conducts contact traces, identifies individuals who may have been exposed to the virus, ensures appropriate remedial measures are taken through facilities, and provides support to the campus community.

TESTING STRATEGY

COVID-19 Testing

Fall 2021 reactivation will include an asymptomatic testing protocol, with the objective to rapidly identify COVID-19 infections, reduce transmission within the campus community, and provide campus public health surveillance data. The campus community is defined as faculty (full-time, part-time, adjunct), staff (full-time, part-time, daily on-site contractors), and students (includes residential, commuting, and remote attendance).

All testing will be completed by trained individuals. All campus community members who elect to have testing conducted off-site are required to document their test results in the daily health screening app and/or notify the Safe & Healthy Rams Coordinator and follow all HT quarantine/isolation guidelines.

CONTAINMENT TO PREVENT SPREAD OF THE DISEASE WHEN DETECTED

COVID-19 REPORTING

- ▷ CDC guidance now includes information for vaccinated individuals who were exposed to COVID-19 after receiving the COVID-19 vaccine. Individuals are not required to quarantine after exposure if they:
 - » Are fully vaccinated (i.e., >14days after receiving the second dose of the Moderna or Pfizer vaccine or 14 days after receiving the single-dose Johnson & Johnson's Janssen vaccine) and
 - » Have remained asymptomatic since the exposure.

CONTACT TRACING

As part of the overall surveillance management process, contact tracing is fundamental to preventing the spread of COVID-19. According to the CDC, case investigation and contact tracing is part of the process to support positive persons and to warn close contacts of exposure in order to stop chains of transmission.

Contact tracing at HT will be conducted by the Safe & Healthy Rams Coordinator via the daily health screening application.

CASE INVESTIGATION

The Safe & Healthy Rams Coordinator works with a COVID infected student, staff, or faculty member to help them recall everyone they have had close contact with during the time they may have been infectious.

CONTACT TRACING

The Safe & Healthy Rams Coordinator begins contact tracing by notifying exposed people (contacts) of their potential exposure as rapidly and sensitively as possible, not revealing the infected person's identity.

What a Person Diagnosed with COVID-19 Can Expect to Happen During Contact Tracing

If you are diagnosed with COVID-19, you may be called to check-in on your health, discuss who you've been in contact with, and ask where you spent time while you may have been infectious and able to spread COVID-19 to others. You will also be asked to stay at home and [self-isolate](#), if you are not doing so already.

- ▷ Your name **will not** be revealed to those you may have exposed, even if they ask.
- ▷ Self-isolation means staying at home in a specific room away from other people and [pets](#) and using a separate bathroom, if possible.

- ▷ Self-isolation helps slow the spread of COVID-19 and can help keep your family, friends, neighbors, and others you may come in contact with healthy.
- ▷ Symptoms of COVID-19 can include fever or chills, cough, shortness of breath or difficulty breathing, fatigue, muscle or body aches, headache, new loss of taste or smell, sore throat, congestion or runny nose, nausea or vomiting, and diarrhea. If your symptoms worsen or become severe, you should seek medical care. [Severe symptoms](#) include trouble breathing, persistent pain or pressure in the chest, confusion, inability to wake or stay awake, or bluish lips or face.

CONTACT SUPPORT

Contacts are provided with education, information, and support to help them understand their risk, what they should do to separate themselves from others who are not exposed, and how to monitor themselves for illness. In addition, they are informed of the possibility that they could spread the infection to others even if they do not feel ill. HT will provide a quarantine space for students and support the holistic needs of the student in quarantine on-campus.

QUARANTINE AND ISOLATION

Quarantine and isolation strategies protect against the spread of COVID-19 on campus. Commuter students will quarantine/isolate at their home residence and students residing in off-campus housing will quarantine/isolate in their off-campus housing.

QUARANTINE

Quarantine is used to keep someone who might have been exposed to COVID-19 away from others. Quarantine helps prevent spread of the disease that can occur before a person knows they are sick or if they are infected with the virus without feeling symptoms. All campus community persons identified through contact tracing as exposed should be tested and then begin 14 days of quarantine. Any person who develops symptoms or tests positive for COVID-19 will convert to Isolation protocols.

1. Employees in quarantine stay home, separate themselves from others, monitor their health, and follow directions from the Safe & Healthy Rams Coordinator. Employees should follow the Human Resources' guidance for COVID-19 sick policy.
2. Students will be evaluated individually for the appropriate quarantine option.
 - a. Commuter students and students in off-campus housing will quarantine at their home residence or off-campus housing for 14 days.
 - b. Residential students will quarantine in a provided room. Support for students in quarantine may include: food services and meal delivery, academic support, remote health monitoring and counseling, and other support for basic needs as identified.

ISOLATION

Isolation is used to separate people with known COVID-19 infection, COVID-19 symptoms, and those awaiting COVID-19 test results from people who are not infected.

1. Employees meeting the criteria for isolation will stay home until they meet criteria to end isolation as defined by the CDC. In the home, anyone sick or infected should separate themselves from others by staying in a specific “sick room” or area and using a separate bathroom (if available). Employees should follow the Human Resources’ guidance for COVID-19 sick policy.
2. Students will individually be evaluated for the appropriate isolation option.
 - a. Commuter students and students in off-campus housing will isolate at their home residence or off-campus housing for 10 days.
 - b. Support for residential students in quarantine may include: food services and meal delivery, academic support, remote health monitoring and counseling, and other support for basic needs as identified.

CAMPUS OUTBREAK MANAGEMENT

If the pandemic landscape changes, then campus protocols will be re-evaluated and may be escalated or scaled back as recommended by local and national public health entities. Monitoring of the community-based risk level will include indicators such as new hospital admissions, the 7-day moving average of hospitalizations, number of patients in the ICU, ventilator usage, positivity rate, and the 7-day moving average of cases.

Define levels of alert status to ensure the campus and its surrounding community is aware of current levels of COVID-19 incidence and prevalence. The chart below provide detail on the stages.

AUSTIN PUBLIC HEALTH RISK-BASED GUIDELINES

<https://www.austintexas.gov/page/covid-19-risk-based-guidelines>

COVID-19 Risk-Based Chart - Vaccine Edition

** Please continue following additional requirements of local businesses, venues and schools regardless of vaccination status or stage.

	Private Gatherings**				Travel**		Dining/ Shopping**	
	Indoor		Outdoor					
	 Vaccinated	 Partially/ Unvaccinated	 Vaccinated	 Partially/ Unvaccinated	 Vaccinated	 Partially/ Unvaccinated	 Vaccinated	 Partially/ Unvaccinated
Stage 1								
Stage 2								
Stage 3		 If high risk: avoid unless essential		 If high risk: avoid unless essential		 If high risk: avoid unless essential		 If high risk: avoid unless essential
Stage 4						Only if essential		Only if essential
Stage 5								Only if essential

* The exact hospitalization average trigger will depend on the rate of increase. A faster increase in the daily average will trigger stage 5 risk recommendations when the number reaches the lower end of this range.

Mask optional, continue washing hands and other hygiene precautions

Not recommended at all, with or without masks

Take prevention measures: wear a mask, wash your hands and social distance following CDC guidelines

CAMPUS REACTIVATION COMMITTEE

Dr. Kelene Blake-Fallon	Kinesiology Faculty
Mr. Christian Broussard	HT Student
Dr. Tamar Brown	Faculty, Alternative Teacher Certificate Program
Dr. Colette Pierce Burnette	President and CEO
Dr. Monique Carroll	Director of Intercollegiate Athletics
Dr. Autumn Caviness	Interim Director of Marketing and Public Relations
Dr. Steven Edmond	Dean and Professor Emeritus, School of Business and Technology
Mr. Elbert Gordon	Interim Facilities Director, Operations Manager
Ms. Eboni Hamilton	Director of Counseling and Consultation
Mr. Gary Hampton	Management Analyst
Mr. Malcolm Haraway	Director of Information Technology
Dr. Michael Hirsch	Dean, College of Arts and Sciences
Mrs. Linda Y. Jackson	Director of the Center for Civic Engagement and Community Outreach
Dr. Ericka Jones	Dean of Student Affairs
Ms. Brenda Kelley	Director of Human Resources
Mr. Wayne Knox	Vice President/Chief Operating Officer & Clerk of the Board
Mr. Duane Lewis	Director of Marketing and Public Relations
Dr. Karen Magid	Special Assistant to the President
Dr. Amanda Masino	Chair, Department of Natural Sciences
Ms. Danielle McGhee	Head Library and Media Services and Archives
Dr. Jennifer Miles	Director, Center for Academic Innovation & Transformation
Ms. Katrina Montgomery	Interim Vice President for Business and Finance
Dr. Christie Ning	Chemistry Faculty
Ms. Shakitha L. Stinson	Director of Student Services – Adult Degree Program
Dr. Rohan Thompson	Dean, School of Business and Technology
Dr. Archie W. Vanderpuye	Provost and Vice-President for Academic Affairs
Ms. Nakeenya Wilson	Interim Vice President for Institutional Advancement
Officer Leslie York	Director of Campus Safety

APPENDIX A: VACCINATION POLICY FOR RESIDENTAL STUDENTS AND STUDENT ATHLETES

htu.edu | 512.505.3000

Policy on COVID-19 Vaccination for Residential Students

Overview

Huston-Tillotson University continues to take a proactive, science-based approach to reactivating campus and curbing the spread of COVID-19. Huston-Tillotson is committed to protecting our entire community and the greater good.

Given the status of the ongoing pandemic in Travis County and the [city of Austin's COVID-19 Risk-Based Guidelines](#) as of this time **COVID-19 vaccination or an approved notarized exemption will be required for all residential students (i.e., students that live on campus).**

Before a housing assignment can be confirmed, students are required to do one of the following:

1. Be fully vaccinated, or
2. Have received at least one dose as needed for full vaccination, or
3. Complete a notarized [exemption form](#).

All documentation **must** be sent to vaccinations@htu.edu, and the original notarized exemption must be brought to move-in for the exemption to be considered valid.

Students who do not provide this required documentation as described above:

- Will not be allowed to live in on-campus housing
- Will be tested weekly for COVID-19 until fully vaccinated
- Will be required to pass a daily health screen

An individual is considered fully vaccinated under this policy two weeks after completing all required doses of one of the following FDA approved SARS-COV-2 (COVID-19) vaccines:

- Pfizer-BioNTech (0.3 ml each): two doses at least 3 weeks (21 days) apart, but no more than 6 weeks (42 days)
- Moderna (0.5 ml each): two doses at least 4 weeks (24-28 days) apart, but no more than 6 weeks (42 days)
- Johnson & Johnson's Janssen (0.5 ml): one dose

Vaccine Documentation

Acceptable documentation includes copies of:

- CDC or similar non-US entity immunization card
- Healthcare provider immunization record

Qualifying exemption categories

1. Medical conditions which make receipt of the vaccine dangerous or otherwise inappropriate (ADA)
Required Documentation: a statement signed by a physician, who is duly registered and licensed to practice medicine in the United States, which states, in the physician's opinion, the vaccination required would be injurious to the student's health and well-being. This exemption expires annually
2. Reasons of conscience, including sincerely held religious beliefs protected under [Title VII](#)
Required Documentation: a notarized [exemption form](#) must be submitted.

Vaccinated individuals must still follow all community standards published at www.htu.edu/safeandhealthyramps

Policy on COVID-19 Vaccination for Student Athletes

Overview

Huston-Tillotson University continues to take a proactive, science-based approach to reactivating campus and curbing the spread of COVID-19. Huston-Tillotson is committed to protecting our entire community and the greater good.

Given the status of the ongoing pandemic in Travis County and the [city of Austin's COVID-19 Risk-Based Guidelines](#) as of this time **COVID-19 vaccination or an approved notarized exemption will be required for all student athletes.**

Before a confirmation to participate can be issued, students are required to do one of the following:

1. Be fully vaccinated, or
2. Have received at least one dose as needed for full vaccination, or
3. Complete a notarized [exemption form](#).

All documentation **must** be sent to vaccinations@htu.edu, and the original notarized exemption must be brought to move-in for the exemption to be considered valid.

Student Athletes who do not provide this required documentation as described above:

- Will not be allowed to participate in any intercollegiate athletic activities (practices, games, team meetings, etc.)

An individual is considered fully vaccinated under this policy two weeks after completing all required doses of one of the following FDA approved SARS-COV-2 (COVID-19) vaccines:

- Pfizer-BioNTech (0.3 ml each): two doses at least 3 weeks (21 days) apart, but no more than 6 weeks (42 days)
- Moderna (0.5 ml each): two doses at least 4 weeks (24-28 days) apart, but no more than 6 weeks (42 days)
- Johnson & Johnson's Janssen (0.5 ml): one dose

Vaccine Documentation

Acceptable documentation includes copies of:

- CDC or similar non-US entity immunization card
- Healthcare provider immunization record

Qualifying exemption categories

3. Medical conditions which make receipt of the vaccine dangerous or otherwise inappropriate (ADA)
Required Documentation: a statement signed by a physician, who is duly registered and licensed to practice medicine in the United States, which states, in the physician's opinion, the vaccination required would be injurious to the student's health and well-being. This exemption expires annually
4. Reasons of conscience, including sincerely held religious beliefs protected under [Title VII](#)
Required Documentation: a notarized [exemption form](#) must be submitted.

Vaccinated individuals must still follow all community standards published at www.htu.edu/safeandhealthyrams

APPENDIX B: HUSTON-TILLOTSON UNIVERSITY EVENTS FORMS

htu.edu | 512.505.3000

HUSTON-TILLOTSON UNIVERSITY FACILITY/GROUNDS

POLICIES AND PROCEDURES

(KEEP ONE COPY AND RETURN ONE SIGNED COPY WITH YOUR REQUEST FORM AND RENTAL CONTRACT)

____1. Your request to reserve a facility (referenced as facility, room, space, or grounds throughout) on the Huston-Tillotson University campus will be processed by the Events Management. A non-refundable deposit is required to guarantee a facility.

____2. Facilities are rented on a first come, first served basis. Huston-Tillotson University reserves the right to cancel any event reservation without advance notice, and assumes, no liability from such cancellation. To reserve a facility, view the information and download forms from <http://htu.edu/offices/facilities>. After reviewing the information, contact Community Outreach at events@htu.edu or 512.505.3006, if you have additional questions.

____3. Liability insurance is required for groups and individuals scheduling facilities. The certificate holder should read: Huston-Tillotson University, 900 Chicon Street, Austin, TX 78702. Huston-Tillotson University and its employees assume no liability from accidents, injuries, losses, thefts, or claims hereto.

____4. All catering must be secured through the campus caterer: Ala Carte Menu Services, Inc. Direct inquiries to foodservices@htu.edu or 512.505.3153. Food restrictions apply to King-Seabrook Chapel and other buildings; prior approval is necessary. No alcoholic beverages may be served at campus events. Ala Carte Menu Services, Inc. will issue a separate invoice for services, including rental charges.

____5. HT Security must be provided for all social events held after hours. Contact Campus Safety at campussafety@htu.edu or 512.505.3010.

____6. Janitorial and grounds services are secured according to the accompanying table. See Rental Fee Schedule form.

____7. Technical support through HT's Information Technology Department is available between 8:30 a.m. - 5:30 p.m., Monday – Friday, with a three-day advanced notice. IT will assist with setting up and verifying audio and visual equipment. IT will not be responsible for securing additional equipment (i.e. PC/workstation, microphone, projector or screen). Contact IT at 512.505.3168 or send an e-mail to helpdesk@htu.edu. Audiovisual equipment may be rented at a per day rate. See fee sheet for itemized costs.

____8. Ladders, tools, equipment are not available from the facilities vendor and the University does not own the items for general use. Use of tables, chairs, etc. to hang, or post items is unsafe and not recommended. Huston-Tillotson University will not be liable for any injury caused by the use of personal equipment during a function at the University; neither shall the University be responsible for the loss of any personal equipment used during a function at the University.

____9. The group or individual requesting the facility is responsible for leaving the facility, grounds and restrooms as they were found prior to the rental.

____10. Hard sole (non athletic) shoes are not allowed on the Mary E. Branch Gymnasium floor. The University will provide a floor covering for use at the renter's expense.

____11. Use of the University's name for any event must be approved through the Office of Public Relations and Marketing at events@htu.edu or 512.505.3072 prior to publishing, printing or broadcasting the announcement. Huston-Tillotson University assumes no liability for the reprint/rework of items (published, printed, or broadcasted) that incorrectly state the University's name, mission, goals or objectives.

____12. The following cancellation policies applies to all facilities/grounds reservations: 30 days prior to the event, a full refund of rental fees paid, minus security deposit; 14 days prior to the event, 50 percent of rental fees paid, minus security deposit; and 5 days prior to the event, no refund will be granted.

King Seabrook Chapel Requirements

Huston-Tillotson University is an All-Steinway School with King-Seabrook Chapel as the concert venue. **Food and beverages are not allowed in King-Seabrook Chapel, near the musical instruments, or around the sound and lighting console.** Violators will not be allowed further use of the Chapel. Food and beverages may be served in the Chapel foyer.

____13. The piano and organ in King-Seabrook Chapel are part of the stage fixtures and may not be moved without written authorization. A \$150.00 tuning charge per instrument will be charged when the instruments are moved.

____14. The University's trained student technicians are required at all chapel events and rehearsals. Technician charges apply. 2018-2
